This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

To the Comptroller-General of the Commercial, Labour, and Statistical Departments of the Board of Trade.

Sir,

The Report and Statistical Tables relating to Workmen's Co-operative Societies in the United Kingdom, which I have the honour to present herewith, form the first volume dealing exclusively with such Societies which has been prepared by the Labour Department of the Board of Trade. For several years past, however, the current statistics of Co-operation have been regularly noticed in the "Labour Gazette," and these statistics have also occupied an important place in the "Annual Abstract of Labour Statistics." The Summary Tables attached to the present Report are in some cases based on Tables which have appeared in the Abstract, but many of the Tables are new, including the detailed comparative Table which occupies pp. 70–159 of the volume, and the Tables showing the distribution of profits, and the nature of the management of each of the Productive Societies at present in existence,

The characteristics which distinguish Workmen's Co-operative Societies from other types of industrial organisations are fully discussed in the opening pages of the Report, which has been prepared by Mr. Dent, one of the Labour Correspondents of the Board of Trade. There are, as will be seen, several distinct classes of industrial Co-operative Societies, organised for the purposes of distribution or production, which are described in detail, while certain other forms of association of a more or less co-operative character—*e.g.*, Building Societies, Co-operative Credit Societies, &c.—receive some notice in a later section of the Report.

The progress made by Co-operation in the United Kingdom in recent years has been continuous and remarkable. Between

3207—1900—6/1899 Wt 7074 D & S 1 a 2

105749

1874 and 1899 the recorded membership of all classes of Co-operative Societies increased from 403,010 to 1,681,342, the percentage which co-operators formed of the population of the United Kingdom rising from 1·2 to 4·1. The increase of the value of the total yearly transactions of these Societies has been still more rapid than that of their membership, the aggregate business for 1874 being valued at about 15 millions sterling, while that for 1899 amounted to over 68 millions, exclusive of the banking transactions of the English Wholesale Society.

The majority of Co-operative Societies (1,446 out of 1,858) are associations established primarily for retail distribution, and these embrace more than nine-tenths of the total membership, and account for two-thirds of the total transactions of Co-operative Societies as stated above. The value, however, of the commodities produced by Co-operative Societies of various classes is very considerable, amounting in 1899 to nearly 11 millions sterling, of which rather more than a third is produced by the workshops attached to Societies for retail distribution, a third by the "Wholesale" Societies, by which the retail stores are largely supplied, and the remainder by independent Societies established expressly for production, including under the last heading the Corn-milling Societies, the output of which was valued in 1899 at over a million sterling. It is interesting to note the progress made by Co-operative Associations established primarily for production since 1882, the first year for which figures are given in the Tables appended to the present Report. Excluding corn mills, returns for 1882 are available for 16 such Societies, with sales amounting to £137,848, while in 1899 the number of Societies was 259, with sales valued at £2,191,785. Over four-fifths of this production is accounted for by the following trades in order of importance:—Dairying, baking, textile, boots and shoes, and printing. Most Societies of this class allot a share of profits to their employees.

The English and Scottish "Wholesale" Societies are Federations of retail Societies for supplying themselves with goods for sale to their members. Full details are given in the Report as to the operations and progress of these Societies.

Among the other features of the present Report, to which attention may be called, are the accounts given of various minor operations carried on by the Retail and Wholesale Co-operative Societies—*e.g.*, the provision of dwellings for their members, insurance, banking, &c., as well as the work of various classes of Societies, such as Building Societies and Labour Loan Societies, which partake more or less of a co-operative character.

I have, &c.,

H. LLEWELLYN SMITH.

REPORT ON WORKMEN'S CO-OPERATIVE SOCIETIES IN THE UNITED KINGDOM.

To the Commissioner for Labour.

Sir,

The Statistical Tables appended to this Report deal with the undertakings carried on upon Co-operative lines, which are owned and managed mainly or entirely by working-men.

Without attempting to lay down any strict definition of Co-operation, it will be sufficient to note that the main characteristics of the Workmen's organisations, which form the subject of this Report, are, speaking generally, of the following nature, though it should be understood that all the characteristics, which will be enumerated, will not be found present in each and every one of these organisations, some associations possessing certain only of the distinctive features of Industrial Co-operation :—

Distinguishing Features of a Workmen's Co-operative Society.

1. Membership is open to all comers, the committee of the Society, however, usually having the right to veto the admission of any persons whose membership is regarded as likely to be detrimental to the interests of the Society. Subject only to this qualification, the share-list of a workmen's Co-operative Society is never closed.

2. The shares in a workmen's Co-operative Society (which are invariably issued at par value) are in all cases of small amount (usually £1), and may generally be paid-up by small weekly or quarterly instalments, or even by the automatic accumulation of the sums accruing to the holder as his share in the profits of the Society, without the necessity for any cash payment beyond a trifling amount paid on allotment.

3. The bulk of the share capital is withdrawable at short notice. A certain number of the Societies, however, compel each member to hold at least one transferable share (which can be realised only by sale).

4. In these Societies, almost without exception, each individual possesses one vote, irrespective of the number of shares held by him. In cases, in which share capital is owned by other Societies, these Societies are usually allowed extra votes in proportion to the amount of share capital held by them.

5. Proxy voting is almost unknown in these Societies.

6. The return on share capital is in most cases limited to a fixed rate of interest (usually 5 per cent. per annum). The surplus profits remaining after the payment of the fixed rate of interest on share capital are distributed in certain agreed proportions, in some cases between the customers of the Society, in others between the customers and the employees, in others again between the customers, the employees, and the shareholders, but in no case do the shareholders receive, in right of their capital, the whole of the profits.

7. Publicity of accounts is a universal feature. As a rule, the statements of accounts issued by the Societies are detailed and complete.

8. The Societies are, with few exceptions, formed under laws specially passed to meet the requirements of the industrial classes and not under the Companies Acts, as ordinary joint-stock undertakings.

Various Classes of Co-operative Societies.

There is a considerable variety in the objects, constitution and methods of working of the different Societies. The Societies in Ireland present so many features of a distinct nature from those found in Societies in Great Britain that it has seemed convenient to deal separately with the Irish Societies. This Report is accordingly divided into the following Sections :—

1. Distribution in Great Britain by :—
   - Retail Distributive Societies.
   - Wholesale Societies.
2. Production in Great Britain by :—
   - Retail Distributive Societies.
   - Wholesale Societies.
   - Associations for Production.
   - Corn Mill Societies.
3. Co-operation in Ireland.
4. The Provision of Dwellings by Co-operative Societies.
5. Associations for Credit :—
   - Building Societies.
   - Co-operative Credit Societies and Banks.
   - Labour Loan Societies.
6. Co-operative Insurance.
7. Propagandist Organisations.

In regard to these different classes of Co-operative Associations a brief explanation is given in this Report, which will

enable the reader to perceive the functions performed by each; and a series of Statistical Tables follows, which will serve to show the extent of their operations and to elucidate various important points in relation to their organisation. In an Appendix the constitution of a typical Society is illustrated by setting forth the Model Rules for an Industrial and Provident Productive Society, published by the Co-operative Union.

CO-OPERATIVE DISTRIBUTION IN GREAT BRITAIN.

Workmen's Retail Distributive Societies.

General Description.

These associations vary in size from the Leeds Industrial, with its membership of 48,000, its capital of £733,664, and its annual sales of £1,473,702, down to the Society at Forth in Scotland, which has 10 members, but possesses no capital, whether share or loan, the 10 members sending a periodical order for goods to the Scottish Wholesale Society, to be delivered at the house of one of their number, where a meeting is held, and the goods distributed among the members.*

Constitution and Method of Working.

Rules.

With the exception of the older Societies, established before the foundation of the Co-operative Union (*see* p. xliv), most of the Societies of the class now under consideration work under model rules prepared by the late Mr. Edward Vansittart Neale, General Secretary of the Union, these being adapted to local requirements by special rules prefixed to the model rules (*see* p. 219).

Membership.

Membership in these associations is invariably open (subject to election by the Committee of Management) to all persons of either sex over 16 years of age.

Voting powers.

Each member of a Society of this class is entitled at the quarterly or other meetings of its shareholders to one vote only, this voting power being entirely irrespective of the number of shares which he may happen to hold. Voting by proxy is practically unknown among these, as among all other types of workmen's co-operative associations in this country.

Committee of Management.

The executive body, managing the affairs of these Societies, under the general supervision of the shareholders' meetings, is a

* For details in respect to the membership and sales of the different retail distributive Societies *see* Table 38, p. 70.

Committee, usually consisting of from ten to fifteen members, elected by the shareholders in general meeting (male and female members of the Society being equally eligible). The usual practice is for a portion only of the Committee to retire at one time, this arrangement being made with a view to preserving continuity of policy in administration. Retiring committeemen and officers (secretary, treasurer, auditors, &c.) are usually eligible for re-election. In a certain number of Societies, however, the rules provide that a member, who has served on the Committee for a given period, usually three years, shall not be eligible for re-election for a period of one year. It is urged, in defence of this practice, that it prevents the committeeman from acquiring the habit of looking at the interests of the members from a merely official point of view, and that it enables a larger number of members to obtain a close acquaintance with the management and business of the Society. Against this view it is contended that it is unwise to render it impossible by rule for the members to re-elect a committeeman who has acquired experience, and has possibly shown considerable administrative ability and earnestness in the work of the Society.

In most Societies the services of the Committee are unpaid; but in some of the larger Societies a small fee (sixpence to one shilling per meeting) is given as an allowance for out-of-pocket expenses. The office of secretary—except in the case of the large Societies—is seldom one carrying with it a salary sufficient to enable the holder of it to devote his whole time to the work of his office. A very large part of the secretarial work of co-operative Societies is done by secretaries engaged in other occupations during the day, who regard the work which they do for their Society as occupation for their leisure hours in the evening, and are very frequently willing to perform this work without remuneration. A secretary is subject to periodical retirement and re-election or otherwise by a general meeting. The office of treasurer is usually subject to the same conditions as that of a secretary; but of late years there has been a tendency to abolish the office of treasurer, and to substitute the Society's Bank as treasurer.

Capital.

Amount. The total capital of these Societies at the end of 1899 amounted to £22,282,473, of which £18,925,270 was share capital, £2,516,691 loans and deposits, and £840,512 reserve and insurance funds.

Shares. Shares in these Societies are of the nominal value of £1, and may be paid in full on allotment or by instalments, usually of 3*d.* per week per share. Frequently in large Societies a first subscription of one shilling is the only payment in cash required, the balance due in respect of the member's liability in respect of his share being provided by crediting his share account with the

sums to which he becomes from time to time entitled as his share in the profits. The Industrial and Provident Societies Acts prohibit any member from holding shares to a nominal value exceeding £200; but loan capital may be invested up to any limit fixed by the rules of the Societies. In many of the older Societies the capital has increased beyond the Society's requirements, and in these cases the amount of share capital that may be held by the member has been limited by the rules to £100 or less, in some cases to £10. The first share taken up by a member is usually a transferable share (with which he can part only by finding another person to take his place in the share register), the Society usually affording facilities for the ready transfer of the share to a new member. Subsequent shares may be withdrawable (the holder having the right to the repayment of the amount paid-up on his share at short notice). In many Societies withdrawable share capital is regarded by the members as in the nature of a savings bank account, drawn upon from time to time when cash is needed.

Interest on Share Capital.

The return on share capital in the retail distributive Societies is always confined to a fixed rate of interest, generally 5 per cent. per annum. In recent years—owing to the increase of capital beyond immediate requirements—the interest on share capital has in many Societies been reduced to 4 per cent. and in some even lower, and frequently varies as between the different shareholders, those making purchases from the Society to a large amount being allowed a higher rate of interest upon their capital than those whose dealings with the Society have been on a smaller scale. Not only, indeed, does the interest on share capital vary in many instances with the amount of purchases according to a sliding-scale, but the view that the Society exists in the interest of the consumer as such, and not of the investing capitalist, is held so strongly in a number of Societies, that in these associations members, who do not purchase goods up to a certain value, are required to forego all interest whatever on their shares, or are even compelled to withdraw from membership.

Accumulation of Capital by Members.

In many cases members, who have already paid up their shares in full, voluntarily allow the interest on their shares and the dividend on their purchases to be regularly added to their share account; and in this manner by the accumulation of dividends and compound interest they have acquired the full limit of share capital permitted by the Acts, or by the rules of the Society, and when this limit has been reached, the money, as it becomes due, is credited as loan capital advanced by them to the Society.

It is this process of transfer of interest and dividends to share and loan capital that has led to the large accumulation of capital in the retail distributive Societies, and has given them the character of an automatic savings bank, in which a member's capital is constantly increasing without any actual investment being made by him directly out of his ordinary

income. The account books of almost every old-established Society would show numerous instances of members who, having invested in cash only one or two shillings, and having in the course of a number of years withdrawn many pounds sterling, still have a substantial balance standing to their credit.

Another reason, which accounts for the steady growth of capital in these Societies, must be looked for in the provisions of the Acts which permit Societies to receive deposits of not more than 10*s.* in one sum or more than £20 in all from any one person, withdrawable at not less than two days' notice.

Investments. As already stated, the Societies, as a whole, possess considerably more capital than is required for their present business; and frequent conferences are held in various parts of the country to discuss the best method of utilising the surplus. At the end of 1899 a total of £9,850,140 was invested by retail distributive Societies otherwise than in their own business. Of this amount, £3,816,087 was re-invested in other Co-operative Societies, including the Wholesale Societies, the Corn Mills and other productive Societies, while £4,465,041 was invested in House Property, partly let to members and partly held on mortgage as security for advances made to members, the balance being invested in various cotton-spinning, railway and canal undertakings and other concerns.

Sales and Sources of Supply.

The total sales in 1899 of the 1,429 retail distributive Societies in Great Britain amounted to £44,985,490, upon which—after allowing for all expenses, but not interest on shares—there remained a profit of £7,021,534. If to this profit we add the trade expenses, amounting to £3,276,714, we get the gross profits, and deducting these gross profits from the sales as given above, we get £34,687,242 as the wholesale value of the goods sold in the year. The Annual Report of the Co-operative Union for 1900 shews that the purchases of 887 Societies from co-operative sources (the Wholesale Societies, the Corn Mills, and other Co-operative manufacturing Societies) in 1899 amounted to £16,022,315; assuming that the remaining Societies which made no return purchased from co-operative sources in the same proportion, we get a total of about £19,500,000; and if to this we add the further sum of £3,906,385, the value of the goods produced by the retail Societies themselves,* we obtain a total of £23,500,000 as the value of goods produced or purchased from co-operative sources. Thus, to the extent of some 68 per cent. of their business, these Societies, carrying out the intention with which they were formed, are engaged in distributing articles obtained from co-operative sources, and to this extent they

* As to production by retail distributive Societies *see* p. xxv.

are able to exercise some degree of control over the industrial conditions under which these goods have been produced. Of the retail distributive Societies, 1,369, comprising 88 per cent. of the total membership of Societies of this class, were at the end of 1899 members of the wholesale Federations, and obtain from these organisations the whole or part of the goods with which they supply the requirements of their customers. There are still, however, some Societies which prefer to obtain the whole of their supplies in the open market—a circumstance for which various causes are assigned, and which forms a constant subject for discussion at gatherings of working-men co-operators.

Distribution of Profits.

Dividends. On balancing the accounts of a Society it is usual for the Committee, having ascertained the amount of disposable profit —after paying all expenses and providing for the fixed rate of interest on shares—to bring to the members at a general meeting a recommendation that the balance—after providing for reserve fund, charitable grants, or an educational fund—be divided among the customers (whether members of the Society or not) as a dividend of so much in the £1 upon the purchases made by them from the Society during the period to which the profit relates, non-members receiving one-half the rate given to members. Goods are sold to the general public at the same prices as to members, every customer being given at the time of purchase a metal or other token representing the value of his purchase. These tokens are returned at the end of a quarter or half-year, when they are accepted as evidence of the amount of the purchases from the Society made by the person presenting them, and form the basis of calculation in ascertaining the sum due to him as his share in the profits of the Society.

The average rate of dividend to members has for several years past been about 2*s.* 8*d.** in the £1. This dividend is usually paid out in cash, except as to the dividends of a member in arrear with the instalments upon his shares, in which case the whole or part of the dividend is placed to the credit of the member's share account.

It is the practice of selling goods at the ordinary market prices of the district and distributing the surplus profits to the customer in proportion to the amount of his purchases, which has largely contributed to the success of Co-operative Societies and the rapid growth of their capital, while many of their members have thus been enabled to save considerable sums who would not have done so if they had obtained their goods at a reduced price at time of purchase.

---

* *See* Table 5, p. 16.

There is, perhaps, some ground for the belief that in districts where competition is not severe, or where, as in some of the mining districts, the co-operators have almost monopolised the trading of the district, the value of the dividend system in encouraging saving has led Committees of Societies to keep selling prices at a level unnecessarily high, in order to increase the dividend, much of which experience has shown will be capitalised by the members. Much discussion as to the policy of high dividends has taken place during the past year or two, and in one or two instances Societies have announced their intention of lowering prices. It is urged that the lowering of prices will bring into the Societies the poorer classes who as yet are largely outside of them, and who, as they cannot afford to wait for a prospective dividend, are led to purchase what they require at the lowest prices for which the goods may be obtainable in the ordinary shops.

In this connection a further proposal, also being actively discussed at the present time by co-operators, is that the larger and stronger Societies shall open, in the very poor localities in their districts, branch stores, at which goods shall be sold at a very small margin over cost prices, plus expenses, and that dividend shall be paid to customers at such branches at a lower rate than that allotted to customers at the other shops of the Society.

Other Profits. During 1899 the sum of £21,471 was allotted out of the profits of retail distributive Societies for charitable purposes, £6,566 was subscribed to the Co-operative Union for propagandist, organisation, and defensive purposes, and £56,158 was devoted to educational purposes, such as libraries, lectures, classes, entertainments, &c.

Penny Banks.

An examination of the balance-sheets forwarded to the Department shows that nearly 500 Societies at the end of 1898 had established "Penny Banks" for the encouragement of saving, especially among the children of members, the total amount standing to the credit of depositors at the end of 1898 being upwards of £500,000. Interest at the rate of $4\frac{1}{2}$ per cent. per annum is usually credited upon the quarterly balances of depositors.

Credit by Societies.

Ready-money trading has always been held up as an important principle among co-operators, and the rules of many Co-operative Societies expressly prohibit credit being given to members. Returns published in recent years prove, however, that there has been considerable departure from this principle, the Report of the Co-operative Union for 1899 stating that no less than

928 retail distributive Societies in Great Britain gave credit for some period, or to some limit of amount (in some cases to the extent of a certain proportion of the share capital held by the customer). Efforts are being made by some of the leading co-operators to induce the Societies to abandon altogether the practice of allowing credit. But there appears to be some difficulty in doing this; and the total amount owing by customers to retail distributive Societies is stated by the Co-operative Union to have risen from £398,340* for 776 Societies at the end of 1895 to £576,913† for 928 Societies at the end of 1899.

It should be stated, however, that the rules of Co-operative Societies usually give the Society a lien upon a member's share capital for debts due by such member to the Society, and that to this extent the Societies are secured against loss by bad debts.

Remuneration and Hours of Labour of Employees.

While the administrative work of the Societies is retained in the hands of elected representatives, the technical and business part of the work is done by permanent employees, engaged usually on salary or wages, in the same manner as persons rendering similar services are remunerated by private employers. The engagement and discharge of the manager, shop assistants and other employees is almost always left in the hands of the Committee, the selection of an employee being frequently made upon the recommendation of the manager, or of a sub-committee appointed to make the necessary inquiries. It is, however, not uncommon in small Societies, when first established, for even the work of distributing the goods among the Society's customers to be done in the evening by members of the Committee in rotation and without remuneration.

Wages.

No statistics exist in relation to the rates of wages paid to their employees by distributive Co-operative Societies. Returns published by the Co-operative Union show, however, that the total salaries and wages paid in 1899 by retail distributive Societies averaged 4·3 per cent. upon the total sales.

Employees' Share of Profits.

Profit-sharing with employees is not generally adopted by the retail distributive Societies, returns published by the Co-operative Union for 1899 showing that 234 Societies only in Great Britain, employing a total of 13,149 persons in their distributive and productive departments (out of a total of 1,429 Societies, with 52,338 employees), had allotted to employees profits amounting to a total of £28,855. Of these, 187 Societies in England and Wales, with 9,921 employees, allotted £17,254 to them (an average of 4·8 per cent. upon the total wages, £361,350, paid to them), and 47 Societies in Scotland,

* *See* page 221 of Report of Co-operative Congress, 1896.
† " " 247 " " " " " , 1900.

employing 3,228 persons, allotted £11,601 (this being equal to 11·0 per cent. upon the £105,730 paid in wages to these employees). (*See* Table 28, p. 57.)

Hours of labour.

With respect to the hours of labour prevalent among the employees of these Societies, the latest analysis of the working hours of employees engaged in the distributive departments of associations of this class is contained in the "Labour Gazette" for October 1897 (p. 292), these details being based on returns made by the Societies for 1896. In the inquiry then carried out it was ascertained that the average working hours of 27,712 distributive employees of 1,123 Societies were 53·6 hours per week, compared with 54·3 in the year 1895. (*See* Appendix II., p. 218.)

Societies Formed and Dissolved.

During the 20 years 1880-99, 856 new retail distributive Societies were formed, and 560 were dissolved, or amalgamated with others, or had ceased to exist (*see* Table 3, p. 6).

The Wholesale Societies.*

Formation and Objects.

The English and Scottish Wholesale Societies are federations (mainly of retail distributive Societies) formed for the purpose of enabling co-operators to make their purchases in an advantageous manner, avoiding competition among themselves in the open markets, and to overcome the difficulties caused, especially in the early days of the Co-operative movement, by the opposition of private traders, who brought pressure to bear upon the wholesale merchants to prevent the supply of goods to co-operative Societies. It was also seen that federations with a large trade, besides, in many cases, purchasing directly from the producer, might eventually set up workshops to produce for themselves the goods required by their members. Previous attempts to form Wholesale Societies had been made in Liverpool in 1832 by the Owenite Co-operative Societies, and in 1850 by the Christian Socialists in London, but both had failed after a short period, mainly owing to the state of the law, which gave the Societies little or no control over the working of the experiments. A further attempt in the same direction was made in 1855 by the Rochdale Pioneers Society, which established a wholesale department for the supply at wholesale prices of the neighbouring Societies, and this also, from various causes, failed after a brief existence.

---

* For Irish Wholesale Societies *see* section dealing with Ireland, p. xxxi.

The Societies then commenced an active agitation for such an alteration in the law as would enable them to establish, and effectively control, federations for their common benefit. The Industrial and Provident Societies Act of 1862 gave this power, and resulted in the establishment of the present English Wholesale Society in 1863, and of the Scottish Wholesale Society in 1868.

Conditions of Membership.

In the English Society membership is confined to Societies registered (with limited liability) under the Industrial and Provident Societies Acts or the Companies Acts. They are required to hold three £5 shares for each 20 (or fraction of 20) members, and are entitled to one vote for each 500 (or fraction of 500) members for whom they have taken up shares.

The Scottish Wholesale Society admits as members only Societies registered under the Industrial and Provident Societies Acts (excluding Societies dealing in intoxicating liquors), who are required to hold one £1 share for each of their own members, and have one vote by right of membership, an additional vote for the first £1,000 of purchases made in the preceding year, and a further vote for every complete £2,000 of purchases beyond that amount. In addition to admitting Societies to membership, this Society has, since 1892, permitted its employees to become holders of from five to fifty shares of £1 each, and they are entitled to send one representative to the general meetings, with an additional representative for every 150 employees who become shareholders. No employee, however, can hold any office in the Committee or be an auditor of the Society. At the end of 1900, 320 of the employees (out of a total of 6,091) were shareholders, holding 6,481 shares, upon which £5,246 was paid-up, and, in addition, £14,820 of the loan capital of the Society belonged to its employees—members and non-members together—the balance-sheets not showing separately the amount belonging to each class.

In both Societies a first deposit of one shilling upon each share taken up is required, the balance being paid up by the accumulation of interest on capital and dividend upon purchases.

Management.

Both Societies are managed by Committees elected by the members, a small proportion retiring each quarter, but being eligible for re-election.

Both Societies hold quarterly meetings, to which members are entitled to send delegates corresponding in number to the votes to which they are entitled. By right of the shares which they hold, the employees of the Scottish Society have a claim to be represented at general meetings of the Society by delegates, each having one vote, the number to which they are at present entitled being three.

In England the quarterly meeting is divided into a series of meetings, held in various parts of the country, Societies having

the right of sending their delegates to any one of such meetings as may be convenient to them, the same agenda of business being considered at each, and the votes given at each meeting being added together and the result declared according to the total numbers.

At alternate quarterly meetings of both Societies a detailed statement of accounts and balance-sheet for six months is submitted to the delegates for approval.

The two Societies render considerable assistance to each other, and in certain departments have joint buyers and depots, of which they share the expenses and management. At the present time arrangements are in progress for creating a legal partnership between the two Societies for the purpose of carrying on certain businesses in common.

Capital and Sales.

The English Society commenced business in 1864 with 50 members (Societies comprising a total membership of 17,545) and a paid-up capital of £999, and the Scottish Society commenced business at the end of 1868 with a capital of £1,795. Their progress may be seen from the following Tables.*

Year.	No. of Federated Societies.	Capital (Share, Loan, Reserve and Insurance).	Sales.
English Wholesale Society.			
		£	£
1870	209	44,164	677,734
1880	604	565,854	3,339,681
1890	941	1,474,466	7,429,073
1900	1,078	3,187,945	16,043,889
Scottish Wholesale Society.			
		£	£
1870	103	12,543	105,250
1880	161	110,179	845,222
1890	260	575,322	2,475,601
1900	288†	1,676,765	5,463,631

Most of the business of the Wholesale Societies is conducted in premises owned by them, the English Wholesale Society having, up to the end of 1900, expended a total of £1,980,303

* *See* also pp. 18-23 and 32-37.

† In addition, 320 employees of the Society were members at the end of 1900.

in land, and buildings and fixtures, and the Scottish Society £847,129.

The English Society owns in its Shipping Department seven steamships, acquired at a total cost of £82,778, the whole of which has been written off by depreciation.*

Both Societies have established workshops for the manufacture of various articles required by the members. An account of these will be found at p. xxvii. in the section dealing with Co-operative Production.

The Societies carry on jointly numerous purchasing depots in foreign countries, the value of the foreign produce imported direct by the English Society† in 1900, as shown by its balance-sheet, amounting to £4,818,310. In the same year it purchased goods from Co-operative Productive Societies in the United Kingdom to the value of £178,607.†

The Society owns an estate of 741 acres in Shropshire, part of which it cultivates, growing fruit and other produce for its jam factory and distributive departments, and part is let to tenant farmers. At a recent meeting of the Society it was decided to convert a mansion and grounds—which form part of the estate—into a convalescent home for members of Co-operative Societies holding shares in the Society. The Scottish Society also rents a farm of 280 acres, which it uses for raising live stock for its own use and for sale to its members.

Profits and Profit-Sharing with Employees.

Division of Profits.

In each of the Wholesale Societies the return on share capital is limited by rule to 5 per cent. per annum. The surplus remaining after paying this interest and after meeting all charges, and such grants for special purposes as may be sanctioned by the general meetings, is (subject in the case of the Scottish Society to the payment of a share in profits allotted to the employees) distributed among the customers as a dividend upon their purchases upon the same plan as that adopted by the Retail Societies, which form the membership of the Wholesale Societies. Non-members of the Wholesale, as of the Retail Societies, receive dividend at one-half the rate paid to members.

Profit-sharing with Employees.

Upon the question of profit-sharing with the employees the two Societies have not adopted the same policy. The English Society does not now share profits with employees, but the Scottish Society, as already indicated, does.

---

* As to the Shipping Department of the English Co-operative Wholesale Society *see* Table 8, p. 21.

† The corresponding particulars relating to the Scottish Society are not published.

On the English Society deciding in 1873 to establish its own workshops for production, the members, upon the recommendation of the Committee, adopted a scheme under which a dividend was to be paid to the employees based partly upon the profits made by the Society and partly upon an increase in sales. When the dividend upon purchases paid to members reached 2d. in the £, the employees were to receive 2 per cent. dividend upon their wages, and an additional ½ per cent. for each increase of ½d. in the £ in the dividend upon purchases, until the dividend upon wages reached a maximum of 4 per cent. In addition, when the sales of the Society for the year averaged £2 per quarter per head of the total membership of the shareholding societies, a further dividend of 1 per cent. upon wages was to be paid, with an additional ½ per cent. for each increase of 2s. 6d. per head in the average sales up to a maximum of 3 per cent. upon wages. This arrangement applied to all employees of the Society, whether engaged in its productive or its distributive departments.

In 1876 the Committee of the Society reported that the dividend system had not given satisfaction, and recommended its discontinuance, this course being adopted at a general meeting of delegates by 150 votes to 78.

In 1882 the Committee introduced into certain departments a system in the nature of profit-sharing, under which a dividend was to be paid, based upon an increase in sales and decrease in expenses, subject to a certain minimum of profit being shown on the working of the department. This was extended to a larger number of employees during 1885; but in 1886 the Committee again reported to the members upon the question, with the result that it was abandoned, and no further steps have been taken as regards profit-sharing with employees.

Profit-sharing was originally adopted by the Scottish Society in 1870, the scheme providing that its employees (all of whom were employed in distribution) should receive a dividend on their wages at double the rate of dividend paid to members on purchases. In 1883 the Society commenced production, and in 1884 this arrangement as to bonus was replaced by one which set aside the double claim of the employees, and recognising a difference between workers in the distributive and productive departments, established a differential rate. Under this, the distributive employees received the same rate of bonus as was the rate of dividend on members' purchases, and the rate of bonus to productive workers was determined by the net aggregate profit made in the manufacturing departments only. This arrangement was again revised in 1892, when the Society decided to pay to all its employees, whether employed in its distributive or its productive departments, a bonus on wages at the same rate as the dividend on purchases paid to members, it being required that one-half of each worker's bonus shall be retained and

placed to his credit in a special fund called the Bonus Loan Fund. This Fund, which at the end of 1900 amounted to a total of £14,820, receives interest at the rate of 3 per cent. per annum, and, except with the consent of the Committee, deposits with the Fund are only withdrawable after the expiration of three months from the date of the employee leaving the service of the Society.

Banking Department of English Society.

The English Society has a Banking Department* with which, in 1900, 621 Co-operative Societies transacted their ordinary banking business. The total receipts of this Bank for the year 1900 amounted to £62,860,006, and the profits, after meeting all charges (including interest upon the capital employed in this Department), amounted to £11,445. These profits are distributed among the customers of the Bank in proportion to the business done with it, non-members receiving a dividend at one-half the rate of that paid to members. In 1900 the rate of dividend to members was one per cent. upon the average debit and credit balances.

CO-OPERATIVE PRODUCTION IN GREAT BRITAIN.†

Classification adopted in Report.

Co-operative production is carried on in various forms, which may be conveniently grouped into four classes. Arranged according to volume of production, these are :—

Class I.—The Productive Departments of Workmen's Retail Distributive Societies.

Class II.—The Productive Departments of the English and Scottish Wholesale Societies.

Class III.—The Associations for Production established mainly in the interests of the Employees.

Class IV.—The Corn Mill Societies.

Class I.—The Productive Departments of Workmen's Retail Distributive Societies.

This section of production has hitherto attracted little attention from writers on Co-operation, doubtless owing to the absence of statistics, and to the informal manner in which, in many cases, it

---

* *See* Table 7, p. 20.

† For Production in Ireland, *see* under Co-operation in Ireland, p. xxxi.

has been commenced and carried on. Thus, when a distributive Society has found that members buying boots from it required repairs, or in some cases boots specially made to measure, a boot-maker has been employed, the materials supplied and the wages paid to him charged to the general expenses of the Society, while the receipts for the sale of the goods produced by him have been put into the till of the distributive department, and no separate accounts of the transaction kept. Other classes of production have subsequently been undertaken in a similar manner, and there are at present several Societies producing goods to a considerable value which do not keep separate accounts of their production, and are compelled to estimate its value when filling up the Returns made to the Labour Department. In a certain number of cases Societies, now classed as distributive, commenced their operations, not by distribution but by production. This is the case in regard to the Society at Leeds, which commenced with a flour mill, and has added its many other departments (distributive and productive).

Extent of Production.

Although co-operative production by retail distributive Societies has certainly been carried on to some extent for the past fifty years, no records exist as to the extent to which it was carried on until 1893, when for the first time Returns were systematically collected from the Societies by the Labour Department of the Board of Trade. The results of this inquiry were published in the "Labour Gazette" in 1894; and the inquiry has been repeated and the results published annually since that date. For the year 1899 Returns were received from 616 Societies, employing 13,810 persons in their productive departments.

The estimated value* of the total output during that year amounted to £3,906,385, or 36 per cent. of the total production by co-operators in the United Kingdom, the goods so produced being transferred to the distributive departments of the Societies.

Employees' wages, hours, and share of profits.

Rates of wages and hours of work of employees engaged in production carried on by retail distributive Societies are usually those prevailing in the district in their trade. The Returns for 1899 show that 65 of the 616 Societies gave a share of profits to their productive employees, amounting to a total of £3,717, or an average of 6·7 per cent. upon the wages paid by them; but in no case is it clear that the amount so given was fixed in proportion to the financial results of the working of the productive department. Frequently the rate upon wages of the dividend paid is identical with the rate of dividend paid to members on purchases from the distributive departments. The great majority of the Societies, however, accept the principle

* The value at which goods were charged to the distributive departments on transfer from the productive departments. In some cases this value was estimated, no exact accounts being kept by the Societies.

that, where the consumer provides the capital, by means of which that which he requires can be made for him, the profit is a fund distributable neither among capitalists nor workmen, but among the consumers; and in these Societies, accordingly, no form of profit-sharing with employees is practised.

Industries carried on.

On pp. 28-31 will be found a Table showing for the four years 1896–99 the various industries carried on by the productive departments of retail distributive Societies, together with the number of persons employed, the amount paid in wages, and the value of the productions, grouped by industries.

Class II.—The Productive Departments of the Wholesale Societies.

Extent of Production.

The English and Scottish Wholesale Societies carry on production mainly for the requirements of their distributive departments. These in turn distribute the goods produced to the retail distributive Societies, which comprise the membership of the Wholesale Societies. (In recent years, however, both Societies have obtained contracts for the supply of certain of their productions to municipal and other public authorities.) The following Table shows the value of the productions transferred by the productive to the distributive departments of the Wholesale Societies during each of the years 1880, 1890, and 1900, the total for 1900 being equal to 19·4 per cent. of the distributive sales of the two Societies :—

Year.	English Society.		Scottish Society.		Totals, Both Societies.	
	No. of Productive Employees.	Value of Productions.	No. of Productive Employees.	Value of Productions.	No. of Productive Employees.	Value of Productions.
		£		£		£
1880	680	118,604	Not Commenced		680	118,604
1890	1,969	341,277	1,024	119,627	2,993	460,904
1900	7,462	2,718,434	4,669	1,446,596	12,131	4,165,030

Unlike the balance-sheets of many of the Retail Societies, the Wholesale Societies' accounts show in considerable detail the financial working of their several productive departments, including the (so-called) "profit" or "loss" resulting therefrom. Although there is no actual sale of the goods when transferred from the productive to the distributive departments, and therefore no real profit, the goods so transferred are charged to the distributive departments at prices agreed upon between the managers of the respective departments, and the "profit" thus

shown is regarded by the Societies as a reasonable test of the efficient management of their various productive departments.

On pages 32 and 33 will be found Tables showing for each year since the commencement of production by the Wholesale Societies the number of persons employed, the amount of capital employed, the value of the goods produced and other particulars, including, in the case of the Scottish Society, the amount of profit allotted to the employees as dividend upon their wages; and on subsequent pages are Tables showing for four years similar particulars for groups of the industries carried on by the Societies.

Class III.—Workmen's Associations for Production Established mainly in the Interests of the Employees.

Character of Societies.

The Societies of this class vary considerably in character, and, with certain exceptions, may be regarded as the outcome of the movement in favour of associations for production in the interest of the producers initiated by the Society for Promoting Working Men's Associations in 1850-52, continued by the advocacy of the late Edward Vansittart Neale, Thomas Hughes, and their co-workers, and at present carried on by "The Labour Association for Promoting Co-operative Production based on the Co-partnership of the Workers," and by the Co-operative Union.

Age.

Of the 132 associations for production at work in Great Britain at the end of 1899, 59 only (45 in England and 14 in Scotland) were in existence in 1889; 30 (16 in England and 14 in Scotland) in 1879; and 17 only (5 in England and 12 in Scotland) in 1869; and of these last, 11 were Scottish Bread Baking Societies, all of which are organisations of consumers, some dating back to the early years of the century.

Value of Productions.

These 132 associations, which at the end of 1899 employed 8,011 persons, produced goods during that year amounting in value to a total of £1,573,121, which were sold mainly to retail distributive Societies, many of which are shareholders in the associations.*

Management and Control.

Extent to which Employees share in capital and control.

On pp. 52-55 will be found Tables showing for 121 of these Associations the number of employees of Societies belonging to the class here referred to who were members of the Societies employing them, the amount of share and loan capital held by these employees at the end of 1899, and the number of employees who were members of the Management Committees of the Societies employing them. From these it appears that, of the total individual membership of these associations in Great Britain,

* For particulars as to the membership, capital, sales and profits of the associations for production for a series of years *see* Table 18, p. 38.

15 per cent. only consisted of employees, and that these employees held between them about 9 per cent. of the total share and loan capital of the associations. It should be remembered, however, that the influence of the employees in controlling the action of these associations cannot be measured by the proportion of capital held by them, as, owing to the general adoption of the principle of one man, one vote, an employee with a single £1 share has usually the same voting power as the largest shareholder. On the other hand, the employees take a much greater share in actual management than is represented by the above proportions. Thus out of the total number of committeemen engaged in managing the associations, nearly 30 per cent. are employees.

Classification of Societies according to constitution of Management Committees.

If we classify the sales of the associations according to the constitution of the Management Committees, we find that of the total sales of the 132 associations, valued at £1,573,121, £696,436, or 44 per cent., was attributable to 20 associations, in which the whole or the majority of the members of Management Committees were representatives of retail distributive Societies; £332,403, or 21 per cent., to 66 associations, in which the whole or the majority were individual members other than employees; £391,834, or 25 per cent., to 29 associations, in which the whole or the majority were employees; and the remaining £152,448, or 10 per cent., to 17 associations, in which no one of the classes named had a majority, or as to the constitution of the Committee of which no information is forthcoming.

Out of the 132 associations 54, with about 53 per cent. of the total sales, were known at the end of 1899 to have no employees on their Management Committees.

From this analysis it appears that, so far as the particulars can be obtained, about a quarter of the total production by these associations is due to associations, the Management Committees of which are effectively controlled by the employees, and about two-thirds to associations, the management of which is practically in the hands of persons other than employees. It should, however, be remembered that, even in associations of the latter type, the interests of the employees are to some extent represented by reason of the fact that many of the individual members of these associations, who are not in the employment of these Societies, are, as a fact, workmen employed in the same industries by other employers and who have become members of the co-operative association partly out of sympathy with the system and partly in the expectation that they will themselves become employees of the association as its trade extends and more employees are required.

Profit-Sharing.

Extent of profit-sharing with employees.

Of the 132 associations making Returns for 1899, 100 have adopted rules providing for the sharing of profits with their employees, and 32 have no provision on this point.

Of the associations which provide for profit-sharing, 26* sustained a loss during the year, 8 used the profit of the year in writing off previous losses or bad debts, and 18 made no Return as to the amount of their profits allotted to employees. Of the remaining associations, 46 in England, employing 4,282 persons and paying in wages during the year £216,089, allotted a total of £12,779 as dividend on wages,† and 22 of these associations also allotted £1,089 to Provident Funds for the benefit of the employees, the total of £13,868 being equivalent to 6·4 per cent. upon the wages paid.

In Scotland three associations, employing 1,265 persons, and paying during 1899 a total of £65,135 in wages, reported that they had allotted a total of £4,854 as a dividend upon the wages† of their employees, and in addition £131 was allotted to a Provident Fund for the benefit of the employees by one association, paying £4,821 in wages, the total of £4,985 being equivalent to 7·1 per cent. upon the wages paid.

The rules of the associations usually provide that a certain stated percentage of the "net profit" shall be allotted to the employees. As, however, the charges to be made upon gross profits, before "net profit" is arrived at, vary considerably in different associations, it has not been found practicable to show in tabular form the proportions allotted by each association; but on page 184 will be found a Table compiled from the balance-sheets and Returns of the associations, showing the actual amounts allotted for various purposes by the associations making Returns for the year 1898, and also the amount paid in wages and salaries by these Societies in that year.

Societies Formed and Dissolved.

On page 6 will be found a Table showing the number of workmen's associations for production, classified by groups of trades, which have been formed during the 20 years 1880 99, together with the number dissolved or which have ceased to exist during the same period.

Class IV.—Workmen's Corn Mill Societies.

This class consists of eight Corn Mill Societies which—like the retail and wholesale Societies—are worked in the interests of the consumers. The total sales in 1900 amounted to £1,226,995.‡

---

* One Society which sustained a loss on the whole year's working allotted £2 as dividend on wages out of the profits of the first half-year.

† Payable in cash or credited as shares in the Society.

‡ For details with regard to the membership, capital, sales and profit of the Corn Mill Societies *see* Table 22, p. 51.

Two Societies, with sales amounting to £178,167, are purely federations, one of 10 and the other of 40 retail distributive Societies. Of the remaining six, two, with sales amounting to £25,350, consist wholly of individuals, and four, with total sales of £1,023,478, have a mixed membership consisting of 363 retail distributive Societies and 4,567 individuals. Constitution of Societies.

In six of the eight societies, with sales of £1,201,645, the Committee of Management consists entirely of representatives of shareholding Societies; in the two smallest, with sales of £25,350, the Committees consist wholly of individual members, none of whom are employees. Three of the mills have a total of 26 employees holding shares, but none of them have any employees sitting on their Committees. One only, with sales amounting to £68,500, gives any share of profits to the employees.

The greater part of the profits of these mills, after paying a fixed rate of interest on share capital, is returned to the customers as a dividend upon purchases in the same manner as is done by the wholesale and retail distributive Societies. On page 190 will be found a Table showing the manner in which the profits of seven of the eight mills were divided in 1898. The remaining mill did not make any profit on the working of this year. Division of Profits.

CO-OPERATION IN IRELAND.

The Co-operative Movement in Ireland is almost entirely a growth of the past twelve years. History of Movement.

In 1888 there were only ten workmen's Co-operative Societies at work in Ireland, these being retail distributive Societies, doing a total trade in that year of £34,273.

In the autumn of 1888 a largely attended conference of co-operators was held at the Irish Exhibition in London, under the Presidency of the Earl of Aberdeen, to consider the subject of "Co-operation as a means of improving the condition of "Irish industries," papers upon that subject being read by Mr. Benjamin Jones* and Mr. R. B. O'Callaghan. As the outcome of the discussion, a committee was appointed "to endeavour "to carry the system of Co-operation into practical operation "among the Irish agricultural and industrial classes."

An "Irish Industrial Co-operative Aid Association" was formed, which for several months carried on an active propaganda in Ireland, subsequently handing over its work to the Co-operative Union, which undertook to form an Irish section

* The Manager of the London Branch of the English Co-operative Wholesale Society.

of its organisation, and to provide the necessary funds for the work. The elected members of the Irish Section included the Hon. Horace Plunkett,* the Secretary being Mr. R. A. Anderson.

An active propaganda was carried on by the Union in favour of Co-operative Dairies, based on the general lines of the Danish Co-operative Dairies, which had in recent years almost driven Irish butter out of the English markets. The farmers, a large proportion of whom are small tenants who carry out with their own hands the whole or the bulk of the work on their farms, being assisted by their families, and employing but few hired servants, were invited to subscribe capital in £1 shares, for the purpose of erecting dairies provided with the latest machinery and equipments for making butter of a uniform quality. It was suggested that one share should be taken up for each cow owned by the member, but no fixed rules were laid down on this point.

Model rules, based upon those usually adopted by British Co-operative Societies, were prepared by the Union. These provided that each Society should be managed by a Committee elected by the members, each member having one vote, irrespective of the amount of capital held by him. The profits, after interest had been allowed on capital at the rate of 5 per cent., were to be divided at an equal rate per £1 among :—

Division of Profits.

(*a*.) The members of the Society in proportion to the value of the milk or cream supplied by them to the Society, and

(*b*.) The workers employed by the Society in proportion to the wages earned by them.

The profits so allotted were not in the first instance to be paid in cash, but, in the case of members under clause (*a*), were to be credited to the member as share capital until the shares applied for by him were fully paid, and were afterwards to be paid in cash, and, in the case of the workers under clause (*b*), were to be accumulated as a loan to the Society at such rate of interest as the general meetings of members should direct, such loan being withdrawable only in the event of the employee being in distressed circumstances, or leaving the employment of the Society.†

Societies at work in 1894.

At the end of 1894 there were 47 Societies at work, with total sales during the year amounting to £268,333. These consisted of 33 dairies, with sales amounting to £158,300, 13 retail distributive

---

* Since appointed Vice President of the Department of Agriculture and Technical Instruction for Ireland.

† In the rules of the Societies registered during the past three or four years it is provided that ten per cent. of the surplus profits, remaining after paying the fixed interest on capital, shall be divided among the employees of the Society as a dividend upon their wages and credited to them as transferable shares in the Societies, and that suppliers of milk, &c., who are non-members, shall receive a dividend on the value of their supplies at one-half the rate paid to members.

Societies, with sales amounting to £45,175, and one Society, formed as an agency for marketing the produce of the dairies, with sales during the year amounting to £64,858.

Action of Irish Agricultural Organisation Society.

During this year (1894) it had been found that the machinery of the Co-operative Union, with its central office in Manchester, was not sufficiently elastic to meet the requirements of the organisers in Ireland, and a new Society had been formed and registered for organisation and propaganda under the name of the Irish Agricultural Organisation Society, the Hon. Horace Plunkett becoming President, and Mr. R. A. Anderson, Secretary. This Society appealed to the public for funds to enable it to continue the work, and enlisted the services of numerous helpers who had not hitherto taken part in co-operative work. It has occupied itself with spreading co-operative principles and teaching the best forms of organisation and of keeping accounts, and has organised a staff of auditors for the Societies. It has given technical instruction in the best methods of developing the business of the Societies formed by its advice, but has not in any case given them financial assistance.

The Irish Agricultural Organisation Society has, up to the present, avoided any advocacy of retail distributive Societies, confining its efforts to the promotion of Societies which will assist Irish men and women to improve their efficiency as producers, to secure the profitable marketing of their produce, and to obtain, of the highest quality and at the lowest prices, raw materials and implements for production. As a result of its work, the number of Societies in Ireland at the end of 1899 had increased to 388. Of these, 115 had not commenced business at the end of the year, or failed to make a Return. The remaining 273 Societies at work were made up as follows :—

Societies at work in 1899.

Description of Society.	Number.	Sales in 1899.
Production—		£
Dairying Societies	123	615,026
Miscellaneous Societies	4	3,638
Distribution—		
Retail Distributive Societies	17	61,956
Agricultural Societies...	74	62,652
Poultry Societies	6	3,261
Home Industries, etc., Societies	5	3,438
Irish Co-operative Agency Society	1	159,209
Irish Agricultural Wholesale Society ...	1	36,697
Total Production and Distribution ...	231	945,877
Credit Banks	42	5,720*
Total Societies and Business	273	951,597

Co-operative Production in Ireland is different in method from Co-operation as generally understood in Great Britain. Irish

* Amount of loans granted to members during 1899.

Dairying Societies.

Societies are, in the main, combinations of small farmers engaged in producing as individuals the raw material—milk—which is made into butter by the employees of the co-operative Societies which they have established for this purpose, and of which they do not themselves propose to become employees. The actual employees of the dairies are comparatively few in number, the average number per dairy in 1899 being about five. It may, perhaps, be suggested that the members who supply the milk to their Society, and who themselves, through their Committee, fix the price they receive for it, and share the profits of its manufacture into butter in the shape of a dividend upon the value of the milk so supplied, may be regarded as to some extent employees of the Society, and in any case occupy a position markedly different from that of the non-employee members of a British productive association.

Agricultural Societies.

The Agricultural Societies, which are next in numbers to the dairies, are associations for the combined purchase of the requirements of their members—especially the requisites of production, such as seeds, manures, agricultural implements, &c.—and the marketing of their produce. In most cases these Societies have taken power in their rules to carry on the work of dairying, the usual practice now being for both classes of Society (agricultural and dairying) to adopt identical rules providing for carrying on both branches of work. The classification of the Societies in the Table above (p. xxxiii) is based upon the nature of the actual work done by the Societies in 1899.

Method of working.

Usually a secretary is the only person employed by the Agricultural Societies, and the capital required is much less than in the case of the Dairying Societies. The average capital (share, loan and reserve) of the 123 Dairying Societies in 1899 was £914, and of the 74 Agricultural Societies £205. In the latter no permanent premises are required, the orders for goods being collected from members by the secretary; tenders for the aggregate requirements are then obtained through the Irish Agricultural Wholesale Society, a Federation of Agricultural Societies, which, having the total requirements of its members before it, is enabled to purchase from the manufacturers on more advantageous terms than it is possible for the individual farmer, or even the local Co-operative Society, to obtain. It is claimed that a considerable reduction in the cost, and improvement in the quality of seeds, manures, &c., has thus been secured for the members of these Societies.

Division of profits.

The rules relating to the division of profits usually provide that, after payment of 5 per cent. on capital, one-half of the net profits shall be credited to a reserve fund, until the latter is equal in amount to the share capital, and that the remainder of the profits shall be divided among the members in proportion to their sales through, or purchases from, the Society.

Retail traders and dealers in agricultural requirements are excluded by rule from membership of the Committee of Management, and at least two-thirds of the members of the Committee must hold at least five shares each in the Society. Qualifications for Committeemen.

The Agricultural Societies approximate more closely to the prevalent type of British Co-operation, in so far as they co-operate for the joint purchase of the requirements of the members; but, in so far as they concern themselves with marketing the products of individual members, they, like the Dairy Societies, Poultry Societies, and Home Industries Societies, perform functions almost unknown among co-operative Societies in Great Britain.

Co-operative methods are now being applied in various other directions, such as the formation of Poultry Societies for collecting and marketing the poultry and eggs, &c., raised by the members of the Societies. Technical instruction is given to the members through the agency of the Irish Agricultural Organisation Society in the improved sorting and packing of eggs, and in the selection of the best breeds of poultry for the market and for producing eggs. Poultry Societies.

"Home Industries Societies" have lately been formed with a view to affording similar assistance to the lace and embroidery makers, and to those engaged in other cottage industries. Home Industries Societies.

Two Wholesale Federations, based somewhat upon the model of the British Wholesale Societies, have been formed. One—the Irish Co-operative Agency for the marketing of the butter, &c., produced by the Dairying Societies—was established in 1893, its total trade for the year 1900 being £177,205. The membership for 1900 is not stated; but at the end of 1899 it consisted of 47 Societies. It has agents in the principal British trading centres with a view to dealing direct with the retailers in private trade, as well as with co-operative distributive Societies.* Wholesale Societies.

The second Federation, the Irish Agricultural Wholesale Society, has been formed for the wholesale purchase and supply to Agricultural Societies of manures, seeds, and other requirements, and is also intended to act as a medium for marketing the products of the members of these Societies. Its membership at the end of 1900 consisted of 29 Agricultural Societies, its trade for the year being £36,764.*

Co-operation has also been applied to money-lending by the Agricultural Credit Societies or Banks described in another section of this Report (*see* p. xxxix). Credit Banks.

---

* For particulars with respect to the membership, capital and sales of the Irish Co-operative Agency and the Irish Agricultural Wholesale Society, *see* Table 10, p. 24.

Societies formed and dissolved.

On p. 6 will be found a Table showing the number of co-operative Societies for distribution and for production which have been formed in Ireland during the 20 years, 1880–99, together with the number dissolved or which have ceased to exist during that period.

THE PROVISION OF DWELLINGS BY WORKMEN'S CO-OPERATIVE SOCIETIES.

A strong opinion has grown up in recent years among co-operators that they should use their organisations and capital to secure better housing for their members. Much difference of opinion exists upon the question of collective ownership of the houses by the Societies *versus* the individual ownership by members. Numerous conferences have during the past two years declared themselves in favour of the Societies retaining the ownership and letting to their members.

Amount expended in house property.

The number of Societies investing their surplus capital in dwelling-houses is rapidly increasing. Encouragement to investment by Societies in houses was recently given by the action of the English Co-operative Wholesale Society, which prepared a scheme under which it was willing to advance capital to its federated Societies at 3½ per cent. per annum upon the security of the title-deeds of house property purchased or built by the Societies for selling or letting to their members. Many Societies have, as a consequence, prepared schemes for giving to their members the advantage of the Wholesale Society's offer.

Returns collected by the Co-operative Union show that up to the end of 1899, 224 Co-operative Societies making Returns had expended a total of £5,147,526 in the provision of dwelling-houses for their members.

Of this amount, £917,397 has been expended by 179 Societies in building 4,247 houses of the average value of £216, all of which are owned by the Societies and let to members. Eighty-nine Societies have expended £827,823 upon the building of 3,709 houses of the average value of £223, which have been sold to members, and 139 Societies have advanced £3,402,306 upon 16,082 houses, which have been built or purchased by members, the average amount lent per house being £211 10s.

Proportion of value advanced.

Ten of the Societies advance up to 95 per cent. of the value of the houses mortgaged, 59 Societies advance up to 90 per cent., and the remaining Societies advance various other proportions from 50 to 92½ per cent.

Rate of interest charged.

The rate of interest charged for advances by 34 per cent. of the Societies is 4 per cent. per annum; by 27 per cent. of the Societies 5 per cent.; while the interest charged by the

remaining Societies is at various other rates, in no case, however, reaching 5 per cent.

With few exceptions the terms of repayment of advances range from 2s. to 5s. per week per £100 advanced.

On p. 61 will be found a Table showing the amount invested in house property at the end of each of the years 1896–99 by Co-operative Societies of different types. Part of this money has been lent to members on the security of mortgages on their dwelling-houses, and part expended on houses which remain the property of the Societies, and are let at weekly or yearly rentals to members.

Other Land and Building Societies.

In addition to such investment by the ordinary Co-operative Societies, there are a number of Land and Building Societies registered under the Industrial and Provident Societies Acts which carry on the business of buying and selling land and houses. There is, however, no information available as to the extent to which these are purely trading societies of investing capitalists, or workmen's co-operative organisations. The Report of the Chief Registrar of Friendly Societies shows that at the end of 1899 there were 125 of such Land and Building Societies, returning a membership of 15,367, a total capital due to shareholders and depositors of £926,405, and total receipts for the year amounting to £343,022.

Another group of Societies, whose operations bear indirectly upon the housing question, are the Building Societies dealt with in the following section on Co-operative Associations for Credit.

ASSOCIATIONS FOR CREDIT (INCLUDING BUILDING SOCIETIES).

Classification adopted in Report.

Workmen's associations for credit in the United Kingdom may conveniently be divided into three classes, viz. : –

Class 1. Building Societies registered under the Building Societies Acts.

Class 2. Credit Societies and Banks registered under (*a*) the Industrial and Provident Societies Acts and (*b*) the Friendly Societies Act.

Class 3. Labour Loan Societies, certified under the Loan Societies Act.

The Returns for the year 1899 showed that the number of associations, with their membership and funds, was as follows :—

—	No. of Associations Making Returns.	Total Membership.	Funds.
Building Societies :—			£
(*a.*) Incorporated ...	2,325	551,210	45,752,251
(*b.*) Unincorporated ...	65	51,771	15,024,257
Credit Societies and Banks ...	55	3,892	48,165
Labour Loan Societies	269	31,542	240,306
Totals	2,714	638,415	61,064,979

Building Societies.

General description.

Building Societies, although not usually recognised as part of the organised Co-operative Movement, are in the main Co-operative Credit Societies, and therefore come within the scope of the present Report. They are largely used by workmen for obtaining advances with which to purchase a dwelling-house, the repayments by instalments of such advances being usually spread over a term of from 10 to 20 years.

A certain proportion of the Societies undoubtedly consist largely of capitalists who use them simply as a means of investment, as will be seen by the large average amount of capital per member shown by some of the Societies for the year 1897, as classified in Tables 35 and 36 (pp. 66, 67). A large number of the Societies, however, consist mainly of members with a small average amount of capital; and these may fairly be classed as workmen's organisations.

(*a.*) Incorporated Societies.

Definition.

The Societies dealt with in Table 34, (p. 64) are incorporated under the Building Societies Acts, the purpose of such Societies being defined as "to raise by the subscriptions of "the members a stock or fund for making advances to members "upon security of freehold, copyhold, or leasehold estate, by way "of mortgage."

Registration.

A Society for the purposes of a Building Society must, if it consists of more than 20 members, register itself under the Building Societies Acts, or the Companies Acts.

The capital of these Societies need not be fixed, and may be withdrawable. Capital.

The membership consists of two classes of members, investing and borrowing; but the annual Returns published by the Chief Registrar of Friendly Societies do not distinguish between these, and the proportion of one class to the other is therefore not ascertainable. At the end of 1899 there were 2,394 incorporated Societies on the register, 2,325 of which, with a total membership of 551,210, made Returns to the Chief Registrar, the total share capital due to members being returned at £31,645,414. Membership.

The Returns from these Societies for the year 1897 have been analysed on pp. 66 and 67 with the view to showing what proportion of the Societies consisted of members with small investments. It will be seen that out of a total of 2,455 Societies the average liability on shares in 1,503 of the Societies, with a total membership of 308,537, was £26 per member. Average Share Liability per member.

(*b.*) Unincorporated Societies.

The Report of the Chief Registrar of Friendly Societies shows that, in addition to the incorporated Societies, there were in existence in 1899, 73 unincorporated Societies, of which 65 made Returns, showing a total membership of 51,771, with a total share capital of £3,460,790. This class of Society is, however, steadily decreasing in numbers, owing to the fact that no new unincorporated Societies can be registered, and to the dissolution from various causes of those already in existence.

Co-operative Credit Societies and Banks.

Although Credit Societies and Banks form a prominent feature of the Co-operative Movement in foreign countries, they have until the last few years been almost unknown in that of the United Kingdom. There is indeed still considerable prejudice against them existing among the members of Co-operative Societies, owing apparently to the belief that facilities for obtaining credit are contrary to the principles of Co-operation as advocated in this country.

At the end of 1899 there were only 82 registered Co-operative Credit Societies or Banks in the United Kingdom, of which 12 were registered under the Industrial and Provident Societies Acts, and 70 as specially authorised Societies under the Friendly Societies Act. Number registered.

The Societies registered under the Industrial and Provident Societies Acts have rules, in which their object is usually stated to be the carrying on of the business of bankers, and which contain provisions that the profits of the Society shall be divided between members, borrowers, employees and reserve funds. Societies registered under Industrial and Provident Societies Acts.

The members of these Societies are in each case required to hold at least one share of the nominal value of £1, and the liability of members is limited to the amount of the shares held by them.

Societies registered under Friendly Societies Act.

The remaining 70 societies, registered under the Friendly Societies Act, set forth their objects as being—

> "To create funds by monthly or other contributions, to be lent out to, or invested for, members of the Society, or for their benefit, pursuant to the Statute 38 and 39 Vic. cap. 60, and to the special authority of 16th May, 1876, provided that every loan shall, in the opinion of the Society, hold out a sufficient prospect of repaying itself by the production, business, or economy which it will enable the borrower to effect."

Nature of membership.

The rules provide that a member must be (1) a householder or occupier of land in the parish, whose liability is not already pledged by membership of a similar association, who applies for and is elected to membership by the Committee; (2) any person owning land in the parish who applies for and is elected to membership by the Committee, and (3) any person who shall guarantee a certain sum in favour of the Bank and is accepted as a member. Except in the case of guarantor members, every member of the Society is equally with every other member jointly and severally liable for all debts incurred by the Society, and for any loan which members or their sureties fail to pay, but each member is liable only for debts incurred and loans advanced during his membership.

Capital.

Unlike the Industrial and Provident Societies Acts, the Friendly Societies Act does not require the holding of a share as a condition of membership of a Society; and members of these Societies do not necessarily invest any capital in the Society, which may carry on its work with an overdraft from an ordinary bank obtained upon the joint guarantee of the members, or with donations, or with deposits obtained at interest, or, as in the case of some Societies in Ireland, with a loan from the Congested Districts Board.

The rules, however, provide that a general meeting may determine to require an entrance fee not exceeding 5*s*., and the taking up of a share of the value of £1, as a condition of membership, and in this event members not complying with these requirements may be removed from membership after any liabilities on their part to the Society already incurred have been discharged.

On p. 63 will be found a Table showing the transactions of all the Societies known to be at work in 1898 and 1899. It will be seen that the majority of the Societies are in Ireland, where the Irish Agricultural Organisation Society has actively promoted their establishment, and where it is claimed that they have been of considerable service in supplanting the expensive system of borrowing previously prevailing among the small farmers.

The special features of the Banks registered under the Friendly Societies Act are (1) that the principle of unlimited liability has been adopted, which, as is urged by the promoters, induces care on the part of the members in granting loans; (2) that the work of the bank is confined to a small area, such as the village, parish, &c., thus ensuring that the character and needs of members wishing to borrow are known to the committee which has to consider applications; (3) that loans are granted only for a specific reproductive purpose, and for a fixed period; and (4) that the work of the bank is usually carried on by unpaid committeemen and officials, the total expenses—including interest on capital—of the 42 Banks at work in Ireland during 1899 being only £146. Special features of these Banks.

Labour Loan Societies.

On p. 68 particulars are given for seventeen years of the Returns made by Loan Societies certified under the Loan Societies Act, 1840.* The object of these Societies is defined as "the establishing a fund for making loans to the industrial classes, and taking payments of the same by instalments." Definition.

Some of these Societies are philanthropic in character, the funds being subscribed by benevolent persons in order to render assistance in very poor districts; others are of a mutual character, the funds being subscribed by workmen, many of whom are at times themselves borrowers, and the loans being made only to members; others, probably few in number, are little more than private businesses in which a small number of capitalists invest their capital, lending it at interest to the general public. Little power of control is given by the Act to members of these Societies, and they are not even entitled to demand copies of the rules (although they have the right to inspect these at the office of the Society), or copies of the balance-sheets. The funds and property of the Societies vest in the trustees for the time being, for the benefit of the Society and its members, and the Society can sue and be sued in the names of its trustees.

Unlike the credit Societies referred to above (p. xxxix), no conditions as to the purposes for which loans are required are made in the case of these Societies, the only requirement being that the security offered shall be sufficient. For this reason Loan Societies have not been without their disadvantages; and they have many opponents, owing to the belief that in some cases they have been a direct encouragement to borrowing for thriftless objects.

The Act prohibits more than 12 per cent. per annum being charged as interest on loans to borrowers; and the Society must Interest charged limited by Act of Parliament.

* This Act does not apply to Scotland or Ireland.

adopt a scheme under conditions set forth in the Act, under which borrowers may repay their loans. On the whole, the co-operative character of these Societies is slight, and the control of the members over the management very small. They are steadily decreasing in number, as will be seen by the Table on p. 68.

Business done.

In 1865 Returns were made to the Registrar of Friendly Societies by 856 Societies, the number of borrowers in that year being 170,318, who at the end of the year had in their hands no less than £518,866, the total amount circulated by the Societies during the year being £857,844. In 1899, the latest year for which particulars have been published, the number of Societies had decreased to 269, the number of borrowers to 55,420, the amount in their hands at end of the year being £193,385, and the amount of loans granted during the year £312,342. An analysis of the Returns for 1899 made by the Chief Registrar of Friendly Societies showed that of the 269 Societies, 12 had funds amounting to an average of £193 per member, but that the remaining 257 Societies averaged only £6 per member, these doubtless being composed mainly of workmen.

CO-OPERATIVE INSURANCE.

The Co-operative Insurance Society, the statistics of which will be found on p. 58, was established in 1867, and was registered under the Companies Acts, it not being possible at that date to register a Society for carrying on the business of insurance under the Industrial and Provident Societies Acts. During 1899 the Society was registered under the Industrial and Provident Societies Acts, the law as amended now permitting the business of insurance to be carried on by registered Industrial and Provident Societies.

Objects of the Co-operative Insurance Society.

The Society was formed by co-operators for the purpose of (1) insuring against fire any property, whether belonging to its members or not, (2) guaranteeing the honesty of persons employed by Co-operative Societies and (3) insuring the lives of members of Co-operative Societies. It was originally proposed to dispense with agents, and to carry on the whole business upon a profit-sharing basis (a portion of the surplus profits remaining after paying a fixed rate of 6 per cent. on the shares being intended to be divided between the policy-holders). But in 1872, three years before the first and only division under the profit-sharing rule, it was found necessary to appoint agents, their commission being payment for local work, just as office expenses were payment for central work.

The rule just referred to required the directors to divide, in 1875, such portion of the Society's surplus as they deemed advisable. To induce Societies to join as shareholders and policy-holders, a division had been promised; but, when the time came, it was not found advisable to divide a larger amount than would give to policy-holders eightpence in the pound on premiums received, and one-third of 1 per cent. to shareholders, in addition to their fixed rate of interest, while £109 was credited to the reserve fund.

Very soon afterwards it was found that, after paying the usual rates of commission to agents, and providing for the very considerable fluctuations year by year, and in groups of years, in the proportion of claims to premiums, it would be unwise to divide any surplus in the fire and fidelity departments. And in 1887 a new rule was adopted, providing that "the balance of premiums received for the company's fire, fidelity, and life insurance policies, after paying or providing for all claims and expenses in respect thereof, shall severally constitute three separate funds for such insurances respectively, neither of which shall be available for the payment of a dividend to shareholders as such."

Share-holders.

At the end of 1900 the Insurance Society had 456 Co-operative Societies holding its shares, of which 81 were in Scotland, and there were also 93 individual shareholders. Over 1,000 Co-operative Societies are insured by the Society.

Share Capital and Funds.

At the end of 1900 the subscribed share capital of the Society was £48,140, of which £10,797 only had been paid-up, but its accumulated funds had reached the sum of £99,794, being separated as follows :—

Life Assurance Fund	£28,232
Fire Assurance Fund	48,757
Accident and Fidelity Assurance Fund	6,583
General Reserve Fund	14,000
Undivided Balance	2,222
	£99,794

The shares are £1 each, and interest is paid annually at the rate of 6 per cent. Since the amount called-up on the shares is only 4s. per share, the payment to shareholders is equal to 4 per cent. upon their paid-up capital, and ½ per cent. on the amount of their liability in respect of the portion not yet paid-up. Each Society is entitled to one delegate, or one vote, for every £50, or fractional part thereof, paid by it in respect of the premiums on insurances effected by it in the preceding year with the Insurance Society. The smallest number of shares that may be held by any one Society is five, on which £1 must be paid on application.

PROPAGANDIST ORGANISATIONS.

There are seven central organisations for purposes of propaganda and organisation and the defence of co-operative interests. These are :—

Co-operative Union	Long Millgate, Manchester.
Labour Association	15, Southampton Row, London, W.C.
Co-operative Productive Federation	39, Cambridge Street, Leicester.
International Co-operative Alliance	15, Southampton Row, London, W.C.
Irish Agricultural Organisation Society.	22, Lincoln Place, Dublin.
Women's Co-operative Guild ...	Kirkby Lonsdale, Westmorland.
Scottish Co-operative Women's Guild	1, Orwell Terrace, Edinburgh.

The Co-operative Union.

The *Co-operative Union* was formed in 1869, and at the end of 1900 comprised 1,108 Co-operative Societies with a total membership of 1,620,185. No Society can be admitted as a member of the Union unless its management is of a representative character, nor unless it accepts the following "as the principles by which all its business transactions should be guided—the desire to promote the practice of truthfulness, justice, and economy, in production and exchange—

(1) By the abolition of all false dealing, either—

(*a*) *Direct*, by representing any article produced or sold to be other than what it is known to the producer or vendor to be ; or

(*b*) *Indirect*, by concealing from the purchaser any fact known to the vendor material to be known by the purchaser, to enable him to judge of the value of the article purchased :

(2) By conciliating the conflicting interests of the capitalist, the worker, and the purchaser, through an equitable division among them of the fund commonly known as *Profit* :

(3) By preventing the waste of labour now caused by unregulated competition."

The Union is governed by an Annual Congress* and by a Central Board consisting of 63 representatives, elected by the Societies situated in each of seven sections into which the United Kingdom is divided for purposes of organisation. The representatives elected by each section are responsible for the work of the Union within their section, the members of all the sections meeting twice a year as a Central Board for deciding questions affecting the Movement as a whole.

The executive management is under the control of a United Board, consisting of thirteen members representing the seven

* For number of delegates to, and Associations represented at Congresses of the Co-operative Union in 1869–1900 *see* Appendix I., p. 217.

Sectional Boards, and various other committees are elected for special purposes. The various sections of the Union are again divided into smaller districts, each with its honorary secretary and district committee, who keep in close touch with the Societies included in their respective districts, holding conferences and meetings to discuss matters of local interest. The Union, by this network of committees, is able to keep a close watch over the interests of its members. It provides speakers for propagandist meetings and conferences, gives free legal advice to its members, and advice as to all the details of management of a Co-operative Society, and acts generally as the representative of the interests of Co-operative Societies.

It has established two Scholarships at the University of Oxford in the names of Edward Vansittart Neale, late General Secretary of the Union, and Thomas Hughes. These scholarships are open to the sons of members of Co-operative Societies which subscribed to testimonials to these two workers in the movement.

Considerable attention has been given during recent years to the guidance of Societies in the expenditure of their grants for educational purposes, an effort being made by the Union to induce Societies to expend their grants not only in teaching the history and principles of Co-operation, but in teaching the duties of citizenship in its various aspects.

The Union is supported by the annual subscriptions of its members, the total amount subscribed for this purpose in 1900 being £7,211.

Joint Committee of Trade Unionists and Co-operators.

In connection with the Union a Joint Committee of Trade Unionists and Co-operators has been formed consisting of four co-operators elected by the Central Board and four trade unionists elected by the Parliamentary Committee of the Trade Union Congress.

The following statement of the objects of this Committee is extracted from a recent report :—

(1) The object of the Committee is to arbitrate upon *any dispute* which may unfortunately arise *between co-operative Societies and their employees.*

(2) The dispute must in the first instance be *between the Society and its employees.*

(3) The employees must first of all approach the governing body of the Society with their grievances, and only when they fail to obtain redress can they approach this Committee for arbitration.

(4.) A demand by a local or general trade union for altered conditions of employment, made in regard to any particular co-operative Society, does not come under the jurisdiction of this Committee unless some of the employees of that Society have first of all made their grievances and requests known to the directors of the Society and have failed in their object. This then becomes a matter of dispute, and the employees of such Society may then

appeal direct to this Committee, or may instruct their local Trade Union to take up the case for them. In all cases there must be action by the employees of the Society in contact with their directors before a dispute can be said to exist.

The Labour Association.

The *Labour Association for Promoting Production based on the Co-partnership of the Workers* is an organisation consisting mainly of individual members, but including also 63 co-operative productive Societies which have accepted the principle of "Labour Co-partnership," *i.e.* (as officially defined in the journal of this Association) "the system under which, in the first place, a substantial and known share of the profit of a business belongs to the workers in it, not by right of any shares they may hold, or any other title, but simply by right of the labour they have contributed to make the profit; and in the second place, every worker is at liberty to invest his profit or any other savings in shares of the Society or Company, and so become a member entitled to vote on the affairs of the body which employs him." It is supported by subscriptions and donations which amounted in 1899–1900 to £827, and is managed by a Central Committee elected at its annual meeting. The Association is actively engaged in advocating the adoption of the principle of Labour Co-partnership by private employers, and the formation of associations for production upon the same lines, and in advising and helping its members in matters of machinery and propaganda. It also promotes an annual exhibition of the products of associations for production.

The Co-operative Productive Federation.

The *Co-operative Productive Federation* is an organisation consisting of 58 Productive Societies united together for mutual assistance in opening up new markets for their productions, and in obtaining new capital for such of its members as are in need of it. It is managed by a Committee of representatives of the Federated Societies, who are elected at its annual meeting, and its work is carried on in close connection with the Labour Association. At the end of 1900 the Federation had a total share and loan capital of £4,287, of which £4,157 was invested with Productive Societies.

The International Co-operative Alliance.

The *International Co-operative Alliance* was established in 1895 with the object of making known the co-operators of each country and their work to the co-operators of all other countries, "to elucidate by international discussion and correspondence the nature of true co-operative principles," and "to establish commercial relations between the co-operators of different countries for their mutual advantage." Its membership consists of individuals and Societies subscribing annually to its funds. It convenes periodical International Congresses of Co-operators, at which a Central Committee representative of various countries is elected. The management of the Alliance is conducted by an Executive Bureau (elected by the Central Committee) which meets in London, one of the two Hon. Secretaries of the Alliance being the General Secretary of the Co-operative Union of the United Kingdom.

The *Irish Agricultural Organisation Society* has been described in the section of this Report dealing with Ireland. The Society is registered as an Industrial and Provident Society, is managed by a Committee elected at the annual meeting, and is supported by share subscriptions, donations, and fees from the Co-operative Societies affiliated to it. Its total income in 1899 amounted to £5,330.* The Irish Agricultural Organisation Society.

The *Women's Co-operative Guild* was established in 1883 with the object of organising women as co-operators for the study and practice of (1) Co-operation and other methods of social reform, and (2) Improved conditions of domestic life. Its members, who in April 1901 numbered 13,278, were grouped into 284 branches, situated in all parts of England and Wales, usually in connection with a retail distributive Society. The Women's Co operative Guild.

The branches of the Guild are grouped into districts and sections closely corresponding with those of the Co-operative Union, with which organisation the Guild does much joint work. The management is in the hands of a Central Committee elected annually by the members voting through the branches. It has also formed sectional and district committees which work upon lines similar to those of the Co-operative Union.

Considerable activity has been displayed by the Guild in propagandist work, in holding conferences and meetings for the discussion of Co-operation in its relation to women's life and work, and of various other questions in which women are specially interested.

The Guild is supported by annual subscriptions from its members, supplemented by grants from the Co-operative Union, its total income in 1900 being £419.

The Scottish Co-operative Women's Guild is an organisation for carrying on in Scotland similar work to that done by the Women's Co-operative Guild in England and Wales. Its membership for the year 1900–1 consisted of 4,439 women, grouped in 63 branches in various parts of Scotland. The Scottish Co-operative Women's Guild.

The following list of the principal periodical publications on Co-operation in the United Kingdom may be of interest:— Co-operative Publications.

"The Co-operative News," *weekly*, Long Millgate, Manchester.

"Labour Co-partnership," *monthly*, 15, Southampton Row, London, W.C.

* An organisation on lines generally similar to those of the Irish Agricultural Organisation Society has recently been formed in England under the title of the Agricultural Organisation Society, Dacre House, Victoria Street, Westminster.

"Scottish Co-operator," *fortnightly*, 137, Norfolk Street, Glasgow.

"Irish Homestead," *weekly*, 22, Lincoln Place, Dublin.

"Report of the Irish Agricultural Organisation Society," *annually*, 22, Lincoln Place, Dublin.

"Report of Co-operative Congress," *annually*, Co-operative Union, Long Millgate, Manchester.

"Co-operative Wholesale Societies' Annual," *annually*, Balloon Street, Manchester.

"The Wheatsheaf," *monthly*, Co-operative Wholesale Society, Balloon Street, Manchester.

"Co-operator's Year Book," *annually*, 19, Southampton Row, London, W.C.

In addition to the publications mentioned above, local "Records" are issued periodically by 32 separate retail distributive Societies, and five "District Records" are issued by separate groups of Societies.

APPENDIX III.

GENERAL RULES FOR AN INDUSTRIAL AND PROVIDENT PRODUCTIVE SOCIETY.

The following General Rules for an Industrial and Provident Productive Society were originally prepared for the use of Co-operative Societies by the late Mr. Edward Vansittart Neale, and are published by the Co-operative Union. They are here re-printed in order to give an idea of the Regulations under which many Co-operative Societies are carried on, but it must be understood that they are in no way official.

The General Rules are subject to Special Rules, by means of which Societies adopting them can adapt them to local requirements, by providing that certain General Rules shall be modified or cancelled. A specimen page of such Special Rules is appended, to show the method by which the General Rules are so altered or cancelled.

RULES

OF THE

LIMITED

(*a*) The rules hereto annexed, entitled "General Rules for an Industrial and Provident Society," numbered 1 to 138, shall be the rules of this Society, subject to the Special Rules thereof.

(*b*) The rules next following, numbered I. to VI., are the Special Rules of the Society, whereto the General Rules therein referred to are respectively subject, and the interpretation clause thereof applies.

THE SPECIAL RULES OF THE SOCIETY.

I. General Rule 3.—The *name* of the Society is the..... LIMITED.

II. General Rule 3.—The *special objects* of the Society are to carry on the trade of.....

III. General Rule 4.—The *Registered Office* of the Society shall be at....., in the county of.....

IV. General Rule 69.—The word "ten," in the fourth line of the General Rule, shall read "five."

V. General Rules to , both inclusive, shall not apply to this Society.

VI. General Rule 114.—After providing for the charges in the General Rule the profits of the Society shall be allotted as follows :—

GENERAL RULES

FOR AN

INDUSTRIAL AND PROVIDENT

PRODUCTIVE SOCIETY.

To be Registered under the Industrial and Provident Societies Act, 1893.

FORM 2.

GENERAL RULES.

CHAPTER I.—GENERAL QUALIFICATION AND INTERPRETATION.

1. *Qualification.*—Every rule herein contained shall be subject to qualification by any special rule of the society referring to it by its number, and shall be deemed to be adopted by the society in so far only as is consistent with such qualification.

2. *Interpretation.*—In the construction of these Rules, including this rule, the following words and expressions have respectively the meanings following, unless the subject matter or context are inconsistent therewith:—

(1) Words importing the singular or plural number respectively include the plural and singular numbers; words importing the masculine gender only include the feminine gender.

(2) "The Act" means the Industrial and Provident Societies Act, 1893.

(3) "The Committee" means the committee of management, board of directors, or other directing body of a society or company.

(4) A "company" means (1) any body corporate other than a society; (2) any society authorised to sue or be sued by any person authorised to act in its behalf; and a "society" means any society registered under the Industrial and Provident Societies Act, 1893, or deemed so to be.

(5) "Lands" include tenements and hereditaments.

(6) "He," "him," and "person" include a company or society.

(7) "Nominal capital" means the amount of the shares allotted for the time being, and not paid off.

(8) "The society" means the society named in the Special Rules.

(9) "Special members" mean the persons by whom the Special Rules are signed, and any other persons whom those rules may declare to be included thereunder.

(10) "The Special Rules" mean the rules prefixed hereto, whereby these rules are made rules of any society.

(11) "The Treasury regulations" mean the regulations approved by the Treasury under the Act, or any Act relating to industrial and provident societies for the time being.

(12) In Ireland "bond" includes a judgment registered as a mortgage, or a mortgage deed affecting specified lands.

(13) In Scotland "letters of administration" and "probate" mean confirmation.

CHAPTER II.—NAME, OBJECTS, AND PLACE OF BUSINESS.

3. *Name, Objects, and Powers of the Society.*—The name and special objects of the society shall be those stated in the special rules. The objects of the society shall include dealings of any description with land. The society shall have full power to do all things necessary or expedient for the accomplishment of all objects specified in its rules, including the power to purchase, hold, sell, mortgage, rent, lease, or sub-lease, lands of any tenure, and to erect, pull down, repair, alter, or otherwise deal with any building thereon.

4. *Registered Office.—How to be Fixed.*—The registered office of the society shall be at such place in the United Kingdom as is mentioned in the special rules. It may be changed by a resolution of the committee.

5. *Removal of Office to be Notified.*—Notice of any removal of the office of the society shall be sent to the Registrar of Friendly Societies for the place where the office is established within fourteen days after such change, or such other time as may be required by the Treasury regulations, and in manner and form thereby prescribed.

6. *Books of Account, &c., to be kept at Office.*—All books of account, securities, documents, and papers of the society, other than such (if any) as are directed by the committee to be kept elsewhere, shall be kept at the registered office, in such manner and with such provisions for their security as the committee from time to time direct.

CHAPTER III.—MEMBERSHIP.

Sec. 1.—Members.

7. *Who are Members.*—The society shall consist of the special members, and of all such other persons as the special rules direct, or the committee may admit.

8. *Shares to be held by Members.*—Subject to the provisions of the Act, each individual member shall hold at least one transferable share, and each society or company one for such number of members as the general meetings may fix. The special members shall be deemed, without any special application, to hold such number of shares as an individual member is required to hold.

9. *Payment on Application.*—Every person shall pay, on applying for admission, 1s., for which he shall receive a copy of the rules.

10. *Application by a Society or Company.*—Applications for admission by a society or company shall be in such of the forms, contained in Rule 124, as the case requires, and shall be for such number of shares at least as the rules require.

11. *Application by an Individual.*—An application by an individual may be made either in the form contained in Rule 124, or by making such payment as is required upon an application for admission, and the signature of a receipt for a copy of the rules in the form contained in the said rule, either by the applicant or on his behalf.

12. *How Applications shall be dealt with.*—Every application for admission shall be considered by the committee at its first meeting after it is made, or so soon thereafter as is practicable; and if it is approved, the name of the applicant shall be entered on the list of members and the register of shares hereinafter mentioned, for the number and description of shares required to be held by the rules, or any larger number applied for and allowed to be held thereby, upon such approval and such confirmation thereof, if any, as the special rules may require.

13. *Notice of Refusal or Admission.*—Notice of the refusal of an application, or of the entry of the name of any applicant on the list of members, signed by the secretary, shall be sent to the applicant, at the address mentioned on the form of application or receipt, within one week after such refusal or entry is made.

14. *Repayment of the Entrance Fee.*—The sum paid on an application for admission shall be repaid on demand to the person by whom or on whose behalf it was or purports to have been paid, within one calendar month after the date of the said notice, if the application is refused; or if it is not granted within three calendar months after the application.

15. *Appeal and Erasure of the Names of Applicants.*—In either of the above cases the person refused admission shall have the same right of appeal as is given by Rule 21.

16. *How Forms to be referred to.*—The forms used on an application shall be numbered, and filed in the office of the society, and referred to in the list of members.

17. *Married Women.*—A married woman may be a member and hold and deal with any shares or other interest in the society credited to her in England and Ireland as if she were unmarried, according to the provisions of the Married Women's Property Act, 1882, and in Scotland as is provided by the Married Women's Property (Scotland) Act, 1881.

18. *Admission of Minors.*—A minor not under the age of sixteen years may be admitted as a member, and execute all instruments and give all acquittances necessary to be executed or given under the rules, but may not be a member of the committee, trustee, manager, or treasurer of the society. [See the Act, section 32.]

19. *Withdrawal of Members and Partial Cessation of Membership.*—A person, all of whose shares have been transferred, repaid, or forfeited under

the rules, shall cease to be a member, and no member may vote at any meeting of the society, either personally or by deputy, if he holds less than the number of shares required to be taken up on admission ; or if he is in arrear of his subscriptions.

Sec. 2.—List of Members.

20. *Where to be kept and Entries thereon.*—The committee shall keep at the registered office of the society, a list of the names, occupations, and addresses of all members, open at all convenient times to the inspection of the members and persons having an interest in the funds ; and each member shall give notice of any change affecting himself, or be subject to such fine not exceeding 1s. as any ordinary business meeting may fix, provided that it is not retrospective. No person whose name does not appear on such list, other than a deputy, shall have any right as a member of the society ; and the committee shall cause to be erased therefrom the names of all such persons as cease to be members under these rules.

21. *Claims to be Entered on, or Removed from the List.*—A person who claims to be placed or retained on, or removed from the list of members, shall apply in the first instance to the committee for that purpose, and if refused may appeal to the next ordinary business meeting held after the receipt of notice of such refusal, which may make such order on the matter as it thinks fit.

CHAPTER IV.—CAPITAL.

Sec. 1.—Share Capital.

22. *Nominal Value.*—The capital of the society shall be raised by shares of the nominal value of £1, payable as to every share required to be held at the rate of not less than 5s. per quarter, with a fine of 1s. per quarter on non-payment.

23. *Instalments.*—Each instalment shall be payable at such place, on such days, between such hours, and to such persons as the committee from time to time fix.

24. *Power to Pay in Anticipation.*—A member may pay the whole or any part of any instalment in anticipation of the period when it will become due ; and, if he holds more than one share not fully paid, may specify to which shares the payment shall be applied, otherwise it shall be distributed equally.

25. *Cases of Distress.*—The committee may remit any fine incurred by non-payment of any instalment, if the non-payment appears to them to have arisen from sickness, distress, want of work, or any other sufficient reason, of which a written statement, signed by the defaulting member or some person claiming to act on his behalf, has been given to the secretary at the time when the payment ought to have been made.

26. *Application of Dividends to Pay up Shares.*—The interest and dividends payable upon the share capital held by any member shall not be paid to him

until all the shares which he is required to hold are fully paid, but shall accumulate and be credited to him from time to time as share capital until such shares are paid up.

27. *Allotment of Shares.*—The committee shall allot to all members other than the special members, upon their admission, or admission and approval as the case may be, such number of shares as they apply for, and shall similarly allot, from time to time, the shares applied for by any member, or required to make the nominal value of his shares not less than the capital of the same name credited to him, provided that the number of shares so allotted does not raise the total investment of any member, except a society, to a sum exceeding two hundred pounds sterling.

Sec. 2.—Enforcement of Debts to Society.

28. *Recovery of Sums due under Rules, and forfeiture of Shares.*—All sums due from any member, for subscriptions or otherwise, shall be recoverable from him, his executors or administrators, as a debt due to the society. The secretary shall lay before each ordinary business meeting a return of all such sums, and thereupon the meeting may—

(1) Direct the committee to take legal proceedings for the recovery thereof;

(2) If the sum is due in respect of a share, declare such share to be forfeited if any payment thereon has been in arrear for three calendar months.

29. *Effect, and Remission of Forfeiture.*—Upon a declaration of forfeiture of a share, all sums paid or credited thereon shall become the property of the society; but the forfeiture may be remitted if the sum due is paid within one calendar month from the date of a notice of forfeiture, which shall be sent in each case to the registered address of the member within one week after the declaration of the forfeiture.

Sec. 3.—Loans and Deposits.

30. *Loans on what security, to what amount, and how may be made:*

(1) The committee may obtain advances of money for the purposes of the society from time to time from any person, whether a member of the society or not, upon the security of bonds, or agreements, or promissory notes, or transferable preferential shares by or of the society, or of a mortgage either legal or equitable of any property thereof;

(2) The total amount so obtained shall not exceed for the time being any limit fixed by the Special Rules, and if no other limit is thereby fixed, twice the then nominal capital of the society, or any inferior limit fixed by a general meeting;

(3) The committee may obtain any such loan on such terms as to the time and manner of repayment as it thinks fit;

(4) The rate of interest agreed to be given on any such advance shall not exceed £5 per cent. per annum;

(5) Any bond of the society may be made a specific charge upon any lands of the society specified therein or in any schedule thereto. But a separate register shall be kept of all such bonds ;

(6) Any such bond or share may be issued, or note given, or agreement or mortgage made, as a continuing security to cover any sum not exceeding the limits aforesaid, due or to become upon the account of the society to any person with whom it may transact banking business ;

(7) All such securities shall be made in such form, and shall be signed on account of the society by such persons as the committee direct from time to time.

31. *Power to Receive Deposits.*—The committee may receive from any persons, whether members or not, on deposit, withdrawable on such notice, being not less than two clear days', as they fix from time to time, any sums, within the total limit mentioned in Rule 30, not exceeding 10s. in any one payment, nor £20 for any one depositor ; no repayment of capital shall be made while any claim due on account of any such deposit is unsatisfied.

Sec. 4.—Investments.

32. *Power to Invest Surplus Capital.*—The committee may invest any part of the capital of the society as follows :—

(1) In advances to members on the security of real or personal property ; and

(2) In or upon any security in which trustees are for the time being authorised by law to invest ; and

(3) In or upon any mortgage, bond, debenture, debenture stock, corporation stock, annuity, rentcharge, rent, or other security (not being securities payable to bearer) authorised by or under any Act of Parliament passed or to be passed of any local authority as defined by Section 34 of the Local Loans Act, 1875 ; and

(4) In the shares or on the security of any other society registered or deemed to be registered under the Act, or under the Building Societies Acts, or of any company registered under the Companies Acts, or incorporated by Act of Parliament or by Charter, provided that no such investment be made in the shares of any society or company other than one with limited liability ; and

(5) If the society is not chargeable with income tax in pursuance of the Act, in any Savings Bank certified under the Trustee Savings Bank Act, 1863, or in a Post Office Savings Bank.

32A. *Power to Vote in respect to Investments.*—The society may appoint any one or more of its members to vote on its behalf at the meetings of any other body corporate in which the society has invested any part of its funds, although such member or members may not personally be shareholders in such other body corporate. [See the Act, section 41.]

Sec. 5.—Repayment of Capital.

33. *Repayment Compulsory on Members.*—Subject to the payment of, or a sufficient provision for, all subsisting claims on the society, the committee may from time to time apply any moneys which they cannot profitably invest to pay off the excess of shares held by those who hold the largest number above those who hold the next largest. Provided that no member be required to accept less than the full sum paid upon each share paid off, and that the number of shares held by any member shall not be reduced below the number required, by the rules of the society, to be held.

34. *Repayment on the Request of Members.*—Subject as aforesaid, the committee may, on the application of the holder of any share, repay any sum not exceeding the amount then credited thereon ; and shall repay the whole sum so credited in any case where they refuse to confirm the transfer of any such share which is fully paid up.

35. *Shares Repaid to be Extinguished.*—All such repayments shall be made on resolutions of the committee, which, with the receipts for the money paid, shall be entered or referred to on the register of shares after mentioned, designating each share by the number to be given to it, and thereupon the shares in respect of which such payments are made shall be extinguished.

36. *Moneys Left with the Society after Notice of Repayment.*—If a member who has received notice that the committee is prepared to pay him off, leave the sum to be thus repaid in the hands of the society, he shall not be entitled to any interest thereon after the expiration of the time named in the notice of repayment.

CHAPTER V.—SHARES.

Sec. 1.—Shares Generally.

37. *Of What Descriptions.*—All the shares of the society shall be transferable.

38. *Where two or more Joint Holders.*—Shares may be held by two or more individuals jointly, either of whom may give a valid receipt for any interest or dividend payable thereon; and all notices relating to any such shares, given to such one as they jointly direct, and in default of any direction, to the one whose name stands first in the books of the society, shall be sufficiently given.

39. *Limit to Dividends.*—Dividends shall not be calculated on or for any fraction of £1, or of a calendar month.

Sec. 2.—Mode of Dealing with Shares.

40. *How to be Allotted.*—All shares allotted by the society shall be numbered continuously, and all such as are not taken to be held by the special members shall be allotted to the original holders thereof by the committee

in the order of the numbers; and all such as are taken to be so held by the special members shall be entered in the share register after mentioned, under the names of such members, in alphabetical order, by the order of the numbers, beginning with one.

41. *Share Register.*—The committee shall keep a share register, in which, under the number of each share, shall be entered the name of the member to whom it was originally allotted, or under whose name it is entered; and if the share is cancelled, as is hereinafter provided, the date of such cancelling.

42. *Share Ledger.*—The committee shall keep, as part of the share register, a ledger containing, in separate columns, under the name of each member, the numbers of the shares originally allotted to, or entered in the name of, or subsequently acquired by such member, with the dates of such allotments, entries, and transfers respectively, and a reference to the pages containing the names of the transferors; the numbers of all shares transferred, with the date of such transfers respectively; a reference to the pages containing the names of the transferees; and such particulars of the amounts paid upon such shares as the committee direct.

43. *Forms of Transfer.*—Transfers shall be in one of the forms hereinafter contained, or as near thereto as the case allows; they shall be numbered continuously, and shall state the number of each share transferred; and shall be executed by the transferor and transferee, and kept in the office of the society, and entered under their numbers in a register of transfers, with such other particulars as the committee direct; and the number of each transfer shall be entered in the share ledger, under the name of the transferor and the transferee

44. *Registration of Transfers.*—No transfer shall be registered unless it is properly stamped, nor if made by a member indebted to the society, without special order of the committee; and until the transfer of a share is registered, no right shall be required against the society by the transferee, nor shall any claim of the society upon the transferor be affected.

45. *To whom Transfers may be made.*—Any share may be transferred with the approval of the committee to any other member at the option of the transferor; but if the transferee is not a member he must be approved of as a member by the committee, or the committee and a general meeting, according to the provisions of the rules relating to the admission of members before the transfer can be registered; and if the rules require a member to hold more than one transferable share the transferee must acquire by the transfer, or by the transfer and allotment, the number so required to be held before the transfer can be registered.

46. *Fee on Transfers.*—Upon each transfer of any share there shall be paid such fee, not exceeding 6*d.*, as the committee may fix.

47. *Payment of Stamp Duty by the Society.*—The committee may pay the stamp duty upon the transfer of any share which a member is required to hold, made for the purpose of enabling him to withdraw from the society.

48. *Lien of Society on Shares.*—The society shall have a *first lien* on the shares of any member for any debt due to it by him, and may set off any sum credited to the member thereon in or towards the payment of such debt.

49. *Sale of Shares to Pay Debts.*—The committee may, in default of payment by any member indebted to the society in any manner contrary to its rules, to an amount not less than three-fourths of the sum paid up for the time being on any transferable share held by him for fourteen days after notice to pay, sell and transfer in the books of the society such share to any person entitled to hold the same under the rules, for the best price obtainable therefor, and apply the proceeds in or towards the discharge of the debt so due and any expenses incurred in or about the same, paying over the balance thereof, if any, to the member, without being responsible for any loss occasioned thereby. Any transfer so made shall extinguish all right of such member in the share so transferred, and shall operate as an original issue thereof, subject to the credit to be given to the purchaser for all payments previously made thereon.

50. *Limit to Amount Expended on Repayments.*—The amount expended on the repayment of any transferable shares shall not exceed any sum placed at the disposal of the committee for that purpose from time to time by the general meetings of the society, and shall be regularly stated in the accounts of the society.

Sec. 3.—Transmission of Interest.

51. *Nomination Book.*

(1) Any member, not being under the age of sixteen years, may, by a writing under his hand, delivered at or sent to the registered office of the society during his lifetime, or made in any book kept thereat, nominate any person or persons other than an officer or servant of the society (unless such officer or servant is the husband, wife, father, mother, child, brother, sister, nephew, or niece of the nominator) to or among whom his property in the society, whether in shares, loans or deposits, or so much thereof as is specified in such nomination, if the nomination does not comprise the whole, shall be transferred at his decease, provided the amount credited to him in the books of the society does not then exceed £100 sterling.

(2) A nomination so made may be revoked or varied by any similar document under the hand of the nominator, delivered, sent, or made as aforesaid, but shall not be revocable or variable by the will of the nominator or any codicil thereto.

(3) The society shall keep a book wherein the names of all persons so nominated and of all revocations or variations, if any, of such nominations shall be regularly entered.

(4) *Notice of the Right to Nominate.*—A notice of the right of nomination shall be sent to every individual member who has not exercised this right, with the report of the first ordinary business meeting in each year of which a report is circulated among the members, and shall be otherwise given, as such meetings may direct.

(5) *Fee on Nomination or Revocation.*—A member shall pay for the entry of every nomination or revocation, whether or not accompanied by a fresh nomination, 3d.; and one fee only shall be charged for the entry of all the names in any nomination or revocation paper, if more than one.

52. *Proceedings in case of Death or Insanity.*

Proceeding on the Death of a Member :—

(1) On receiving satisfactory proof of the death of a nominator, the committee of the society shall either transfer the property comprised in the nomination in manner directed by it, or pay to every person entitled thereunder the full value of the property given to him unless the shares comprised therein, if transferred as directed by the nominator, would raise the share capital of any nominee to a sum exceeding £200, in which case they shall pay him the value of such shares.

(2) If the total property of the nominator in the society at his death exceeds £80 the committee shall, before making any payment, require production of a duly stamped receipt for the succession or legacy duty payable thereon, or a letter or certificate stating that no such duty is payable from the Commissioners of Inland Revenue, who shall give such receipt, letter, or certificate, on payment of the duty, or satisfactory proof of no duty being payable, as the case may be.

(3) If any member entitled to property therein in respect of shares, loans, or deposits, not exceeding in the whole at his death £100, dies intestate, without having made any nomination thereof then subsisting, the committee may, without letters of administration, distribute the same among such persons as appear to them, on such evidence as they deem satisfactory, to be entitled by law to receive the same, subject, if such property exceeds £80, to the obtaining from the Commissioners of Inland Revenue a receipt for the succession or legacy duty payable thereon, or a letter or certificate stating that no such duty is payable.

(4) If any such member is illegitimate, and leaves no widow, widower, or issue, the committee shall deal with his property in the society as the Treasury shall direct.

(5) Upon the death of any member who has an interest in the society exceeding £100, or transmitted by his will, and a notice in writing given by his executor or administrator to the secretary of the society, stating the death of such member, and the Christian name, surname, profession, or business of such legal representative, and specifying the nature and amount of his interest or claim; and the production, if the case requires, of the probate of the will of, or letters of administration to, such member, and of such evidence (if any) of his death as may be required by the committee, the committee shall either transfer the shares, or other interest of the member specified in such notice, in the books of the society to his legal representative, or shall pay to him the sum which represents the full value thereof, and may make such transfer or payment at their

discretion, unless the transfer would increase the interest of the transferee in the society to more than £200, in which case they shall make the payment in money.

(6) *Insane or Lunatic Member.*—If a member becomes insane, and no committee of his estate or trustee of his property has been duly appointed, the committee may, when it is proved to their satisfaction that it is just and expedient so to do, pay the amount of his property in the society, not exceeding £100, to any person whom they shall judge proper to receive the same on his behalf.

53. *Transmission by Bankruptcy.*—If any member becomes bankrupt, his interest in the society shall be transferable or payable to the trustee or (in Ireland) assignee of his property.

54. *Extinction of Shares Paid Off.*—An entry of each share paid off under Rules 51, 52, or 53 shall be made in manner provided by Rule 35, and thereupon the share shall be extinguished.

55. *Transfer to Make Membership.*—Every nominee or other person to whom any share is transferred under this section shall thereby become a member of the society, if not previously a member.

56. *Joint Holders of Shares.*—On the decease of a joint holder of any share, it shall be transferred into the name of the survivor on his application.

CHAPTER VI.—GOVERNMENT & ADMINISTRATION.

Sec. 1.—General Meetings.

57. *Ordinary and Special Meetings.*—Meetings of the members shall be either general, which include (1) ordinary business meetings, (2) special general meetings; or monthly.

58. *Ordinary Business Meetings.*—The first ordinary business meeting of the society after it is established shall be held at such time as the special members fix, and the subsequent meetings at such times as the Special Rules determine, and if they do not direct otherwise, in each sixth and twelfth month after the first meeting, upon such days and hours as are fixed by the resolutions of any such meetings from time to time, and so far as no such resolution extends by the committee.

59. *Monthly Meetings.*—Monthly meetings shall be held as the ordinary business meetings direct, and shall have such functions as is so directed, and so far as no such direction extends the following functions:—

(1) To confirm or not the election of members and the transfer of shares, if the rules require such elections or transfers to be confirmed by a general meeting;

(2) To discuss the affairs of the society;

(3) To explain the principles and rules of the society;

(4) To make suggestions for the consideration of the committee ;

(5) To recommend the names of persons suitable for election as officers of the society.

60. *Functions of Ordinary Business Meetings.*—The functions of ordinary business meetings shall be :—

(1) To receive from the committee, auditors, or any other officer of the society, reports upon the business of the society during the period embraced therein and the state of its affairs at the date thereof, which, except any such meeting directs otherwise, shall be made to every such meeting ;

(2) To elect the committee, auditors, and other officers of the society, excepting those whose appointment is given by the rules to the committee ;

(3) To transact any other general business of the society.

61. *Time and Place of Holding such Meetings.*—Any ordinary business meeting may fix, from time to time, its place of meeting, which, where no other place is so fixed, shall be the registered office of the society.

62. *Notice of Time and Place of Meeting.*—Such notice shall be given of the time and place of the first ordinary business meeting as the special members direct, and subsequently, notice of the time of every ordinary business meeting, and of the place where it is to be held if it be other than the registered office of the society, and, in case the meeting has to elect any officer of the society, of what officers are to be then elected, shall be given by fixing such notice conspicuously in the registered office and every place of business of the society for fourteen clear days before the day of the meeting, and otherwise, as such meetings may direct.

63. *Special General Meetings.*—Special general meetings shall be convened by the secretary, either on an order of the committee, or upon a requisition signed by half the number of members if not more than forty, and twenty if forty or upwards, and shall be held as soon as is possible after the receipt of such order or requisition, and at the ordinary place and time of the business meetings of the society, unless any ordinary business meeting fixes any other place of meeting.

64. *Notice of Special General Meetings.*—Notices convening a special general meeting shall state the time and place thereof, and every purpose for which it is convened, and shall be posted to the registered address of all the members not less than six clear days before the day of meeting, unless in any case of emergency where the committee unanimously direct a shorter notice to be given.

65. *Where Members may give Notice.*—If the secretary does not convene a special general meeting in manner required hereby, for seven clear days after a requisition therefor, signed as hereinbefore is provided, has been delivered at the office of the society, any of the requisitionists may give such notice of the meeting as is provided by Rule 64, and shall have a claim upon the society for all costs, if any, properly incurred in giving such notice.

66. *Business of Special General Meetings.*—A special general meeting cannot transact any business not specified in the notice convening it, nor unless the notice convening it has been given according to the rules. But an ordinary business meeting may be made special for any purpose of which notice has been so given, provided that such business is not brought on until the ordinary business is concluded.

67. *Quorum of General Meetings.*—An ordinary business or special general meeting may proceed to business if ten members are present within an hour after the time fixed for the meeting; otherwise the meeting, if a special general meeting convened on the requisition of the members, shall be dissolved, but if an ordinary business meeting or a special meeting convened by order of the committee, shall stand adjourned to the week following, at the same time, and shall be held at the principal place of business of the society, unless any resolution of an ordinary business meeting directs otherwise, in which case it shall stand adjourned to such place as is so directed; and the meeting so adjourned may proceed to business whatever is the number of members present. No meeting shall become incompetent to transact business from the want of a quorum arising after the chair has been taken.

68. *Power of Adjournment.*—Any general meeting, duly constituted, may adjourn to such place, at such time within thirty days as the members present direct, and may continue any such adjournment from time to time. No business shall be brought on at any adjourned meeting which could not have been transacted at the original meeting; and the same notice shall be given of any meeting adjourned for more than fourteen days, as was required for the original meeting.

69. *Quorum of Monthly Meetings.*—A monthly meeting shall be dissolved if such number of members are not present within such time after the hour of meeting as the meeting appointing them fixes, and subject thereto if ten members are not present within fifteen minutes.

70. *Chairman of Meetings.*—Every meeting shall have a chairman, who shall not vote unless the votes are equal, when he shall have a casting vote; and who, in the absence of the president of the society, shall be any member of the committee willing to preside; and in the absence of any such member, such person as the meeting selects.

71. *Votes of* (1) *Individuals*, (2) *Societies or Companies.*—(1) Each individual member present, who holds such number of shares as an individual is required to apply for on admission, and is credited in the books of the society with a sum equal to one share, and is not disqualified by Rule 19; and such one of the joint holders of the like number of shares credited with the like sum and not so disqualified as they appoint in writing, shall have one vote. Proxies shall be admitted only if the Special Rules so direct and under the conditions therein stated. (2) A society or company which holds such number of shares as it is required to apply for on admission, and is not in arrear of the subscriptions due thereon, may vote by a deputy, who shall have one vote.

72. *How Votes shall be Taken.*—Votes shall be first taken by show of hands, unless a ballot on any question is demanded by five members present,

when they shall be taken by ballot as the committee fix. Subject to any special direction contained in any rule of the society or Act of Parliament, all questions shall be determined by a majority of votes.

73. *Appointment and Powers of Deputies.*—A deputy shall be appointed by a resolution signed by the secretary and two members of the committee of the society or company, and sent to the secretary of this society. He shall be taken to be a member of this society on behalf of such society or company, and shall be included in the number of members required to constitute a meeting; and shall be competent during the continuance of his appointment to do any act consistent therewith which could be done by an individual member; and the appointment of a deputy shall be taken to continue until notice of the withdrawal of his appointment, or of the appointment of some other deputy in his stead is so given as above stated.

74. *Conduct of Members.*—The committee, if they find it requisite, may pass resolutions for regulating the conduct of members at meetings, or the time after which divisions shall not be taken; which shall be binding on all the members, subject to any resolutions of the ordinary business meetings thereon.

Sec. 2.—The Committee of Management.

75. *How Committee to be Formed.*—The business of the Society shall be conducted by a committee of management, which, until the first ordinary business meeting is held, shall consist of the special members, and after such meeting shall consist of such number of committee-men as the ordinary business meetings may fix from time to time, and subject thereto, of the president, and of four committee-men elected at such meeting.

76. *Retirement and Re-eligibility of Committee-men:*

(1) At each ordinary business meeting one of the committee-men shall retire and another shall be elected: the order of retirement being fixed so far as is practicable by priority of election, but if necessary by ballot. A retiring committee-man shall be immediately re-eligible.

(2) If a vacancy caused by the retirement of any committee-man is not filled up by the meeting by which it ought to have been filled under the rules, the retiring member may continue to act until the next ordinary business meeting.

77. *Removal of Members of Committee.*—A committee-man may be removed from office at any time by two-thirds of the members voting at a special general meeting, which may thereupon proceed to fill up his place by a vote of the majority of the members voting.

78. *Qualification of a Committee-man.*—No person can be a committee-man who is not a member, and any person who becomes bankrupt, or is concerned in the profits of any contract made with the society, except as a member of any society or company which contracts with or does any work for it, shall thereupon vacate his office; but no person shall be disqualified by accepting employment as a worker for the society.

79. *Vacancies—How to be filled up.*—A vacancy in the number of committee-men arising from any such disqualification as aforesaid, or the removal of any committee-man whose place is not filled up by the meeting by which he is removed, or the death, resignation, incapacity for acting, or refusal to act, of any committee-man, shall be filled up with some qualified person (1) if it arises in the interval between two ordinary business meetings, by the remaining members of the committee, or if not so filled, by the next meeting; (2) if it arises at any such meeting, by the meeting, and in the last case any committee-man who may resign shall be immediately re-eligible. Every person so appointed, or elected by the meeting to fill any vacancy, shall be substituted for the member who has caused the vacancy, and shall retire from office at the time when such member would have retired.

80. *General Powers of the Committee.*—Subject to the provisions as to the manager of the society hereinafter contained, the committee shall control all business carried on by or on account of the society. They shall from time to time engage, remove, or discharge all assistant managers, salesmen, or employés of any description, other than manual workers, required to conduct any such business, and fix their duties, salaries, or other remuneration, at such rates, and require them to give such [security, in such forms approved of by them, as they determine. They shall decide on the evidence to be produced for establishing the claim of any nominee, executor, administrator, or official trustee to any share in the society, and may institute, prosecute, compromise, or refer to arbitration any suit, debt, liability, or claim against, by, to, or on the society; and in any case for which the rules of the society do not expressly provide, may exercise any power which could be exercised by the society in general meeting, other than such as by the law for the time being relating to Industrial and Provident Societies may be required to be exercised by such meetings, and so that in the exercise of any such power they do nothing inconsistent with the previous resolutions of such meetings. And all acts or orders done or given by the committee in the name and on behalf of the society under any power hereby given them, shall bind the society and every member thereof as fully as if they had been acts or orders of a majority of the members of the society, at a general meeting thereof, acting in exercise of the powers given them by the rules.

81. *The Committee to Summon Meetings, Provide Books, &c.*—It shall be the duty of the committee, under such penalties, if any, as the Special Rules direct—

(1) To convene all meetings of the society according to the rules thereof, subject to the provisions hereinbefore contained as to special general meetings;

(2) To provide proper books for entering the accounts of all business carried on on behalf of the society, and the minutes of all meetings thereof, and of their own proceedings, and for making all such entries as are hereby required, or as any general meeting may direct;

(3) To provide such forms as are necessary in consequence of the provisions of the rules, and for the same being kept, made up, or used in such manner as in their discretion they think desirable;

(4) To provide a sufficient supply of copies of the annual returns and books of rules to comply with the directions of Rule 113.

82. *The Committee to lay Statement of Accounts and Report before the General Meetings.*—The committee shall prepare a statement of the accounts of the society, in such form as the ordinary business meetings direct from time to time, and lay them, duly audited, by the persons appointed to audit the same, before each ordinary business meeting, unless such meetings direct otherwise, and in that case before such meeetings as they may direct, accompanied by a report on the position of the affairs of the society, signed by the chairman of the meeting at which such report is adopted.

83. *Time, Place of Meeting, and Quorum of the Committee.*—The committee shall meet at such times and places as the ordinary business meetings direct, and, so far as no such direction extends, at such times and places as they determine; but shall not proceed to business unless three members are present. No member of the committee shall vote on a question on which he is personally interested.

84. *Fines for Non-attendance.*—The ordinary business meetings may impose fines on any member of the committee for non-attendance, provided that no such fine is retrospective.

85. *Chairman of the Committee.*—Every meeting of the committee shall have a chairman, who shall be the president of the society if present, and in his absence such one of the members of the committee as they appoint. The majority of votes shall decide, and in case of an equality of votes the chairman shall have a second casting vote.

86. *Special Meetings of the Committee.*—A special meeting of the committee may be called by a notice in writing given to the secretary by two members one clear day before such time. The secretary shall communicate every such notice to all members of the committee as soon as possible after the receipt thereof; and no other business shall be done at the meeting than the business named therein.

87. *Appointment of Sub-committees.*—The committee may delegate any of the powers hereby given to them to a sub-committee of its own members, who shall, in the functions entrusted to them, conform in all respects to the instructions given them by the committee.

Sec. 3.—Officers of the Society.

88. *The President:*

(1) The president shall be elected at the first ordinary business meeting of the society after it is registered, and subsequently at the first ordinary business meeting in each year;

(2) He must be a member of the society, and shall be disqualified from office by the same circumstances which are disqualifications for a committee-man, and shall be removable from office by such a majority as can remove a committee-man;

(3) He shall be re-eligible, and if no successor is appointed on the termination of his office shall continue in office until the next regular period of election ;

(4) A vacancy in his office shall be filled up at the next ordinary business meeting after it occurs, and if not then filled up by the members may be filled up by the committee ; but the person so appointed shall continue in office only till the regular time of election, subject to clause (3) ;

(5) He shall take the chair, if present, at all meetings of the society or the committee ; and shall sign the reports to be laid before the meetings of the society, after they are approved of by the committee.

89. *The Treasurer :*

(1) The ordinary business meetings may appoint and remove a treasurer of the society, who, subject to any direction given by such meetings—

(*a*) Shall supervise the accounts and payments of the society, which shall be entered in the books thereof as he from time to time directs, under the orders of the committee ;

(*b*) Shall lay before the committee at such times as they direct, and in default of any other direction at the first meeting in every month, a statement of the business of the society, showing such particulars as the committee require ;

(*c*) Shall discharge any other functions relating to the receipts or payments of the society, which the committee may direct.

(2) Subject to any such appointment and direction, the committee shall make such arrangements for the discharge of the duties of treasurer as they think expedient.

90. *The Secretary :*

(1) There shall be a secretary of the society, with the duties following :—

(*a*) He shall summon and attend all meetings of the society and of the committee, and of any sub-committee if so required by the committee, and shall keep minutes thereof in such manner as the committee direct ;

(*b*) He shall make such returns relating to the business of the society as the committee require ;

(*c*) He shall have charge of the documents and other papers of the society, and if required by the committee shall keep the accounts in such manner as they direct ;

(*d*) He shall keep all the books relating to shares, loans, or deposits required to be kept under the rules of the society, and the list of members, and shall receive all contributions, fines, and other payments due from the members to the society, and keep the accounts thereof, and pay over the amount so received as the committee directs ;

(*e*) He shall prepare and send all returns required to be made to the Registrar

(*f*) He shall in all things act in the discharge of his duties under the direction and control of the committee.

(2) The secretary shall be appointed and removable by the committee, who shall fix his salary, and may appoint and remove any clerks or other assistants required to aid him, and determine their duties and salaries.

91. *Remuneration of Officers.*—The ordinary business meetings may from time to time remunerate the president, committee-men, or treasurer, for their services, in such manner and to such amount as they may think fit.

92. *Accounts of and Security by Officers:*

(1) *Generally.*—It shall be the duty of every officer of the society having the receipt or charge of money, or his executors or administrators, at such time as the society or the committee require, or upon demand, made, or notice in writing given or left at his last or usual place of residence, to give in his account, as may be required by the society or the committee, to be examined and allowed or disallowed by them, and on the like demand or notice to pay over all moneys and deliver all property for the time being in his hands or custody to such person as the society or the committee appoint.

(2) It shall be the duty of every person holding any office touching the receipt or charge of any moneys of the society, under the penalty of £1, before entering on the execution of his office, either to enter into an agreement or to become bound, with or without a surety, as the committee require, in such forms as they approve from time to time, or to give the security of a guarantee society in such sum as they direct, for rendering a full and true account of all moneys received or paid by him on account of the society, at such times as the Special Rules fix or as the committee require, and for the payment of all sums due from him to the society.

Sec. 4.—Conduct of Business.

93. *The Manager.*—The committee shall appoint, at such salary as they determine, a general manager, who, subject to the resolutions of the committee from time to time, shall have the following powers:—

(1) He shall superintend the business of the society, receive and give receipts for all moneys due to it, engage and, with such consent as is hereinafter provided by Rule 99, discharge all workmen employed by it and regulate their wages, determine the price to be paid or charged for all goods bought or sold on its account, and, subject to the approval of the committee, make all contracts entered into on its behalf other than any contract relating to the purchase of land, which shall not be made except on a previous resolution of the committee.

(2) He may give and take such credit as is usual in the trade, and in the course of the business of the society may draw, accept, or endorse any bill of exchange on its behalf; but shall not borrow money on its behalf, or in any other way pledge its credit, without the authority of the committee.

(3) He shall, whenever required by the committee, report to it on any matter connected with the business of the society, and at the first meeting in every month shall make a regular report on the business of the society during the last month, containing all such particulars as the committee requires for the time being.

(4) The manager may be a member of the committee.

(5) *The Committee* may, by a vote of three-fifths of their number if not more than five, or two-thirds if over that limit, suspend the manager from the execution of his duties, until they can bring the question of the ground of such suspension before a special general meeting, which shall be convened with the least possible delay, and may either reinstate the manager or continue his suspension for the purpose of investigation, or by the vote of a majority of two-thirds of the members present remove him.

(6) *The Committee* shall provide for the discharge of the duties of the manager during such suspension, as last aforesaid, or any vacancy in the office.

94. *Payment of Moneys into Bank.*—All moneys received from the members or otherwise on behalf of the society shall be applied for the purposes of the society as the general meetings direct from time to time, and subject thereto shall be placed to the account of the society with such bank as the committee select; and if not impracticable with some banking society or company which is a member of the Co-operative Union, Limited; and, if the moneys of the society cannot conveniently be thus disposed of, shall be kept in such custody as the committee direct from time to time.

95. *Payment by Cheques subject to the Direction of any General Meeting.*—When a banking account is opened, all payments above such sum as the general meetings fix from time to time, and subject thereto £5 shall be made by cheques, signed by two of the committee, and countersigned by the secretary.

96. *The Seal of the Society—its Custody and Use.*—The society shall have its name engraven in legible characters upon a seal, which shall be in the custody of the secretary; and shall be used only under the authority of a resolution of the committee, the date whereof shall be mentioned on the instrument to which the seal is attached; and shall be attested by the signature of two members of the committee and countersigned by the secretary.

97. *Use of Name of the Society.*—The name of the society shall be mentioned in legible characters in all notices, advertisements, and official publications, bills of exchange, promissory notes, endorsements, cheques, or orders for money or goods purporting to be signed by or on behalf of the society, and on all bills of parcels, invoices, receipts, or letters of credit of the society, and shall be conspicuously painted or affixed, and kept painted or affixed in letters easily legible, on the outside of every office or place of business of the society. [See the Act, section 66.]

98. *Complaints and Suggestions.*—A member or customer who has any complaint to make as to the quality, quantity, or price of any goods supplied

by the society, or any suggestions for better carrying into effect the objects of the society, shall send the particulars of such complaint or suggestion to the committee, who shall inquire into and decide upon them, and shall report such decision to the next ordinary business meeting.

99. *The Board of Conciliation:*

(1) There shall be a board consisting of one member of the committee, who shall be chairman, and four other members, elected at the first ordinary business meeting in each year from members of the society employed as workers, or workers entitled to become members, to which shall be referred all complaints against any person who has been employed by the society for more than twelve weeks during the twelve months last previous, which are of a nature to involve any greater penalty than a fine not exceeding 5s., and which shall report to the committee their award in the matter.

(2) The manager or committee may appeal from any award of the board to a general meeting, whose decision shall be final. But, subject to such appeal, they shall respectively give effect to every award of the board.

Sec. 5.—Federation.

100. *Co-operative Productive Federation.*—This society shall become a member of the Co-operative Union, Limited, and promote, as far as practicable, union among productive societies for purposes of common utility.

Sec. 6.—Evidence.

101. *Minutes to be Evidence of Proceedings.*—The minutes of all meetings of the society or committee, containing such particulars as the committee direct from time to time, shall be regularly recorded by the secretary; and the minutes of every monthly or ordinary business meeting of the society, and of every meeting of the committee, shall be read at the next of such meetings respectively, and signed by the chairman of the meeting at which they are so read, and the minutes of every special general meeting shall be read at the meeting of the committee following, and signed by the chairman of such meeting; and all minutes so signed shall, in the absence of evidence to the contrary, be taken as between the society and every member thereof to be a true statement of any matter therein contained, subject to the correction of any patent error.

102. *What to be sufficient Notice.*—Every member shall be taken to have due notice of every meeting, resolution, or other matter of which notice is required by the rules of the society to be given, if the same is made known by posting or sending a notice to the registered address of such member.

CHAPTER VII.—ACCOUNTS AND RETURNS.

Sec. 1.—The Auditors.

103. *Number of Auditors.*—There shall be, subject to the appointment of any public auditor, two auditors of the society.

104. *Appointment of Auditors:*

(1) The auditors shall be elected at the first ordinary business meeting of the society after it is registered; and afterwards one shall retire and one shall be elected at each ordinary business meeting, the order of retirement of the first auditors being fixed by themselves;

(2) A retiring auditor shall be re-eligible;

(3) A vacancy in the appointment of an auditor may be filled up by the committee:

(4) No servant of the society can be an auditor;

(5) Any such meeting, in lieu of electing an auditor, may direct that the accounts shall be audited by a public auditor appointed under the Act, named thereby; and thereupon the appointment of the then continuing auditor shall be vacated, and the audit shall be conducted by such public auditor;

(6) Any subsequent general meeting may vary such direction by substituting the name of another public auditor, or, by a resolution whereof notice has been given as in the case of a special general meeting, may rescind the same; and thereupon the meeting shall elect auditors, who shall retire and be re-eligible as is provided by clauses (1) to (3).

105. *Duties of the Auditors:*

(1) *General.*—The auditors shall audit the accounts of the society to be prepared by the committee as hereinbefore provided, for the period intervening from the formation of the society, or their last audit, to the beginning of the last calendar month previous to each ordinary business meeting, and shall lay before it a balance sheet of the receipts and expenditure of the society during the period to which the audit extends, and a statement of its assets and liabilities at the time of such audit, both signed by them, which shall specify the total amount of all moneys borrowed by the society, distinguishing the character of the securities on which each is obtained.

(2) *Annual Return.*—The auditors shall examine the annual return after-mentioned, and verify the same, with the accounts relating thereto, and shall either sign the same as found by them to be correct, duly vouched, and in accordance with law, or specially report to the society in what respects they find it incorrect, unvouched, or not in accordance with law. [See the Act, section 14.]

106. *Powers of the Auditors.*—The auditors shall be entitled to call for and examine any paper or document belonging to the society, and shall make a special report to the society upon any matter connected with the accounts which appears to them to require notice.

107. *Audited Accounts to be Binding on the Members.*—Every balance sheet signed by the auditors and approved of by the meeting to which it is presented shall be binding on all members of the society, excepting as to any error therein exceeding the sum of ten pounds brought before the next ordinary business meeting.

108. *Copy of Accounts and Report.*—A copy of the last balance sheet of the society and of the report of the auditors shall be kept always hung up in a conspicuous place in the registered office of the society. [See the Act, section 16.]

109. *Remuneration of the Auditors.*—The auditors shall receive such remuneration as the ordinary business meetings vote them from time to time.

Sec. 2.—Inspection of Accounts.

110.—*Right of Inspection of Books:*

(1) Any member or person having an interest in the funds of the society may inspect his own account and the books containing the names of the members at all reasonable hours at the registered office of the society, or at any place where the same are kept, subject to such regulations as to the time and manner of such inspection as may be made from time to time by the general meetings of the society.

(2) Any ten members, each of whom has been a member of the the society for not less than twelve months, may apply to the Registrar for the appointment of an accountant or actuary to inspect the books of the society and report thereon. Such accountant or actuary shall have power to make copies of any books of the society, and to take extracts therefrom, at all reasonable hours at the registered office of the society, or at any place where the books are kept. [See the Act, section 18 (1), (3).]

111. *Inspection of Affairs on Order of the Registrar:*

(1) An application may be made under section 50 of the Act—

(*a*) To appoint one or more inspectors to examine into the affairs of the society, and to report thereon;

(*b*) To call a special meeting of the society in manner and for the purposes provided by such sections.

(2) The application may be made by one-tenth part of the whole number of members, or if the society exceeds 1,000 members, by 100 members.

(3) The application must be supported by such evidence for the purpose of showing that the applicants have good reason for requiring such inspection to be made or meeting called, and are not actuated by malicious motives therein, and be made on such notice to the society as the Chief Registrar directs.

(4) Unless the Registrar to whom it is made directs otherwise, all expenses of and incidental to any inspection or meeting ordered by him shall be defrayed out of the funds of the society. [See the Act, section 50.]

Sec. 3.—Annual Return.

112. *What and When to be Made.*

(1) The committee shall, at such time before the 31st day of March in each year as they determine, send to the Registrar a general

statement, to be called the annual return, of the receipts and expenditure, funds and effects of the society as audited, which—

(*a*) Shall show separately the expenditure in respect of the several objects of the society ;

(*b*) Shall be made up to its last published balance sheet, provided that the date of such balance sheet is not more than one month before or after the 31st day of December then last, or otherwise up to the 31st day of December then last inclusively ;

(*c*) Shall state whether the audit has been conducted by a public auditor appointed as by the Act is provided, and by whom ;

(*d*) If the audit has been conducted by any person other than a public auditor, shall state the name, address, and calling or profession of each such person, and the manner in which and the authority under which he is appointed.

(2) Together with such return the committee shall send a copy of every auditor's report during the year whereto the same return relates. [See the Act, section 14.]

113. *Copies of Annual Return and Rules.*—It shall be the duty of the committee to supply to every member or person interested in the funds of the society, on his application—

(1) Gratuitously a copy of the last annual return for the time being of the society. (See the Act, section 15.]

(2) To every person on demand a copy of the rules, at such price, not exceeding one shilling, as the committee fix from time to time. [See the Act, section 10 (4).]

CHAPTER VIII.—PROFITS.

Primary Charges.

114. The net profits of all business carried on by or on account of the society, after providing for the interest and dividend upon any loans or deposits, or guaranteed preferential shares, according to the rates respectively agreed to be paid, shall be applied as follows :—

(1) *Reduction of Fixed Stock, &c.*—In reduction of the value of the fixed stock and plant of the society, at the annual rate of 10 per cent. on fixtures, and of 2½ per cent. on shops, warehouses, or other buildings ;

(2) *Reduction of Preliminary Expenses.*—In the reduction of the preliminary expenses (if any) incurred in forming the society, and remaining unwritten off in its books, at such rate, being not less than £5 per cent. per annum, as the ordinary business meetings on the recommendation of the committee from time to time direct ;

(3) *Dividend on Share Capital.*—In paying this dividend according to the rate fixed by the Special Rules ;

(4) *Reserve Fund.*—In forming, by applying such percentage of the net profits as the committee determine, a reserve fund to which all fines shall be carried, applicable, by a resolution of the ordinary business meetings, on the proposal either of the committee or an individual member, and in regard to which notice has been given on the balance sheet—

(*a*) To the equalisation of dividends ;

(*b*) To meet any other contingency affecting the business of the society ;

(*c*) To any other purpose which the general meetings may from time to time direct, whether such purpose be charitable, philanthropic, of public utility, or any other purpose whether within the objects for which the society is formed or not ;

(5) *Educational Fund.*—In promoting instruction, culture, or recreation, by forming an education fund, to which 2½ per cent. of the net profits, or such other sum as any ordinary business meeting may vote, shall be carried ;

(6) *Congress Funds.*—In paying a subscription to the funds of the Co-operative Union, Limited, during such time as the society may continue a member thereof, according to the rules and orders of the Union ;

(7) *Social Fund.*—In promoting any social or provident purpose, including the formation of a sick and funeral fund, authorised by any special general meeting, or any two successive ordinary business meetings, by applying thereto such sums as the ordinary business meetings may vote.

The application of the profits, subject to these charges, is to be dealt with by the Special Rules of the society.

115. *Educational, Provident, and Social Funds :*

(1) *Mode of Dealing with—Special Accounts, and Committees for.*—The funds appropriated under the above-named provisions shall be applied for their respective objects in such manner as the ordinary business meeting direct from time to time, and separate accounts shall be kept thereof. In every case where specific funds are voted for educational, provident, or social purposes, a separate account shall be kept of all sums voted for such purposes, and a special committee of such number of members, appointed in such manner as is fixed by such ordinary business meetings from time to time, shall be named in each case, who shall be responsible to them for the due application of the funds placed under their care ; and the accounts of all such funds shall be regularly audited by the auditors of the society and submitted to the ordinary business meetings, at such periods as they direct from time to time, and subject thereto at each such meeting.

CHAPTER IX.—DISPUTES AND EXPULSION OF MEMBERS.

116. *Disputes—how to be determined.*—All disputes arising between a member, or any person claiming through a member, or under the rules of the society, and the society or any officer thereof, other than claims arising under Rule 98, shall be dealt with as follows :—

(1) *Appointment of Arbitrators.*—At the first or any subsequent general meeting of the society after it is registered, five arbitrators shall be elected, none of whom are directly or indirectly interested in the funds of the society.

(2) *Mode of Selection.*—In any case of dispute the secretary of the society, or such other person as the committee direct, shall, in the presence of the complaining party or someone appointed by him, write the names of the arbitrators for the time being upon separate pieces of paper, and place them so that the names shall be concealed, from which the complaining party or his representative shall draw three, and the persons whose names are so drawn shall be the arbitrators to decide the dispute.

(3) *Vacancies* in the number of arbitrators shall be filled by the first general meeting after they occur, and if not then filled, by the committee.

(4) *If Arbitrators fewer than Three.*—Two arbitrators shall be competent to hear and decide any question, but shall, before hearing it, appoint an umpire, by whom, if they differ, the question shall be determined.

(5) The costs of an arbitration shall be borne as the arbitrators direct, and each party shall deposit 10s., to abide their decision.

117. *How a Member may be Expelled.*—A member may be expelled by the vote of two-thirds of the members present at a special general meeting of the society, upon a charge in writing of conduct detrimental to the society, communicated to him by order of the committee for one calendar month before the meeting.

118. *Payment of Expelled Member.*—A member so expelled shall be paid the full sum paid on any shares in the society held by him at the date of the resolution for his expulsion ; and all transferable shares held by him shall be extinguished upon such payment being tendered, whether the member accept the tender or not ; and an entry referring to the minute of expulsion and the date of such tender shall be made on the register of shares under all such shares.

119. *Re-admission of Expelled Member.*—No expelled member shall be re-admitted except by a vote of two-thirds of the members present at an ordinary business meeting, on a motion of which notice has been given.

CHAPTER X.—ALTERATION OF RULES.

120. *Majority requisite to make Alterations.*—Any rule of the society not declared to be fundamental in manner hereinafter stated, may be rescinded or altered, or any new rule be made, by a majority of two-thirds of the members present at any special general meeting.

121. *Fundamental Rules.*—The Special Rules of the society may declare any rule of the society therein mentioned, including this provision, to be fundamental; and no rule comprised in such declaration shall be rescinded or altered without such consent so given as is thereby specified.

122. *Additions or Alterations.*—Application for the registration of every addition, repeal, or alteration shall be made to the Registrar for the country where the society is established in manner and form required by the Treasury regulations, so soon as is practicable after the same has been made; and a copy thereof shall be issued with every copy of the rules issued after the registration thereof. No amendment of rules is valid until registered.

CHAPTER XI.—CHANGE OF NAME, AMALGAMATION, CONVERSION INTO A COMPANY, & DISSOLUTION.

123. (1) *Change of Name, &c.*—The society may, by special resolution passed in manner prescribed by the Act:

(*a*) Change its name, with the approval of the Registrar* in writing;

(*b*) Amalgamate with or transfer its engagements to any other society or company, or accept any such transfer;

(*c*) Convert itself into a company under the Companies Acts as in the Act prescribed. [See the Act, section 54.]

(2) *Dissolution.*—The society may be voluntarily dissolved:—

(*a*) By a resolution to wind it up, made as is directed in regard to companies by the Companies Act, 1862 to 1890;

(*b*) By an instrument of dissolution signed by three-fourths of the members for the time being, and in the form prescribed by the Treasury regulations [See section 58 (*b*).]

CHAPTER XII.—FORMS OF INSTRUMENTS.

124. *Instruments shall have the following Forms.*—The instruments referred to in the preceeding rules shall be in the forms following, or as near thereto

---

* The Chief Registrar in England, or the Assistant Registrar for Ireland or Scotland, if the society is registered and does business exclusively there.

as the case allows. The date, the name of the society, and, if the case requires, an address to the committee shall in all cases be prefixed :—

(1) *Application for Admission by an Individual:*

(*a*) *By Application for Shares.*—I, the undersigned, hereby apply for [*transferable*] or [*withdrawable*] shares in the above-named society, in respect of which I agree to make the payments required by the rules of the society, and otherwise to be bound thereby.

Signature of applicant, stating his address and occupation.

(*b*) *By Payment for a Copy of Rules.*—Received this day a copy of the rules of the above-named society, for which I have paid [*on account of the undermentioned applicant**] the sum required to be paid on an application for admission to the society.

Signature as above, or if the payment is made by any other person than the applicant, of this person, stating the name, address, and occupation of the applicant.

(2) *Application for Shares by a Society or Company.*—We, the undersigned, secretary, and two of the committee of management of the [Society Limited] hereinafter called the applicant, in virtue of a resolution thereof, dated the day of hereby apply on its behalf for [*transferable*] or [*withdrawable*] shares in the above-named society, in respect of which the applicant hereby agrees to make all payments required by the rules of the above-named society, and otherwise to be bound thereby. In witness whereof we have signed our names hereto, by the authority of the society.

Signatures of the members of the committee, and countersign of the secretary, stating respectively their qualifications as such, and the registered office of the applicant.

The same form applies to a company, substituting company with or without limited as the case may be, for [Society Limited], and board of directors for committee.

(3) *Transfer between Individuals.*—This instrument, made the day of 18 , between A, of , and B, of , witnesses, that in consideration of the sum of £ , paid by the said B to me, I, the said A, hereby transfer to the said B, his executors, administrators, and assigns, the shares, numbered, , now standing in my name in the books of the above-named society, to hold the said shares upon the same conditions on which I now hold the same ; and that I, the said B, hereby accept the said shares, subject to the said conditions. In witness whereof we have hereto set our hands.

_____Name of Transferor.

_____Name of Transferee.

---

* Omit the words in brackets if the payment is made by the applicant.

(4) *Transfer between Societies or Companies.*—This instrument, made the day of , 18 , between the Society Limited, established at , hereinafter called the vendor, of the one part, and the Society Limited, established at hereinafter called the purchaser, of the other part, in consideration of £ paid by the purchaser to the vendor, witnesses that the vendor hereby transfers the shares numbered , now standing in the name of the vendor in the books of the above-named society, to the purchaser, and the assigns of such purchaser, to hold the same upon the same conditions on which they are held by the vendor; and that the purchaser accepts the said shares subject to the said conditions. In witness whereof the seals of the said societies are hereto attached, by the resolutions of the committees thereof, dated respectively the day of and the day of

N.B.—The seals of the societies and signatures of the committee and secretary must be affixed as in form (2). The same form applies, with the necessary changes, to transfers between companies.

The foregoing rules are the General Rules referred to in the Special Rules signed by us :—
